Nobody knows that an average of 14, Boy Scouts used to earn the Reading Merit Badge every year for the first years of Boy Scouts. By , it was under 5, and dropping. The best Western writers experienced firsthand what Western life was like, which includes writers such as L. The hardest part about getting people to change their life is getting them to realize that they can change their life, and that it is in their own hands to do so. I think it truly pays respect to the Arizona Rangers, who are the real heroes who tamed Arizona, making it possible for statehood History has taught me that the winner in any conflict becomes the senior editor in any recounting of that event. My biggest influences have been those who have maintained their own integrity to their vision in creating a better world. Those include Walt Disney, L. The one character I am in awe of is Thor. That hammer of his is awesome. He has always been the coolest. The best time to create is now. What is up with not letting kids read fun books? Let them develop an appreciation for reading first. Ever hear of CliffsNotes or Monarch Notes? I fell in love with the West when I grew up in Tucson, Arizona, in the s and s. And I loved to play in my backyard! My mother always told me I could do anything I set my mind to. Then she told me I had to finish eating my dinner before I could have dessert. Ron Hubbard wrote for pulp magazines, including his Westerns, like the recently released King of the Gunmen. As president of Galaxy Press, he has created the Adventures in Reading program in an effort to promote the Reading Merit Badge to more than 2. What do you think?

Chapter 2 : John Goodwin Obituary - South Carolina - calendrierdelascience.com

Excerpt from The Life of John Goodwin: Comprising, an Account of the Controversies in Which He Was Engaged, in Defence of Universal Toleration in Matters of Religion, and of the Universal Redemption of Mankind by the Death of Christ.

A man who really knew how to step-up to the plate. A man who knew how to get things done. A man who always had the answers, no matter how difficult the question. A man who knew what to do even when no else did. A man who always did things right, and always did the right thing. Wayne, you picked a star from the sky when you chose Harriet to spend your life with and made a family with her. They all loved you deeply. We thought you would be here forever, invisible you were, but sadly you have been taken from us. So we will look beyond the sadness of today to the beauty of love that last forever and you will live forever in our hearts and in our minds. Sincerely, Susette Kelo and family. Please keep all of your memories close to your heart and remember the good times. May 5, Arlene, Sister Arlene, Harriet and family. Wayne grew up to be a respectable young man. I remember our younger days. My deepest sympathy to all family. You always said all you wanted was for us to have "forever"You had that from the start,the happy, the sad,the good,the bad,you always had me to go through it with. Was it you talking to me? My thoughts and prayers are with you! We hope it brings you comfort to know that you are in our thoughts and prayers. May 5, Arlene and Family Patricia Tracy and George Rice. Heather McCaslin May 5, We are so sorry for your loss. Both of my sons are in class with Chelsea and Brandon. Our prayers are with your family, there is a new angel in heaven. If we can do anything, please let us know. I lost a great friend, but his memories will remain in my heart. Rest in piece Wayne. May 5, I will miss you wayne. My thoughts and prayers for you and family. Harold and I hold many fond memories of Wayne. He will be missed. May 5, We are soo very sorry. For it is these memories that shall lend you the comfort and ease the pain of your loss. Marcia Day May 5, Wayne was a self-made man not afraid to take chances. He clearly had a calming effect on my sister Harriet and his new blended family. Over the years, he had many ventures and adventures but stayed focused on his goals and committed to family. Brandon was lucky to have a dad who was both fun-loving and no-nonsense. Wayne will be deeply missed. He clearly had a calming effect on my sister Harriet and his blended family. Brandon was lucky to have a dad with such a sense of adventure tempered with certain family values. My thoughts and prayers are with those left behind. Dawn Vars Phillips May 5, My thoughts and prayers are with you in your time of grief. May your memories bring you comfort.

Chapter 3 : John Goodwin () - Find A Grave Memorial

The Life of John Goodwin: Comprising an Account of His Opinions and Writings, and of the Controversies in Which He Was Engaged in Defence of Religious Liberty and of General Redemption: With a Review of Several Public Transactions in Great Britain, written by Thomas Jackson published by Nabu Press.

I would recommend reading through the first post if you have not already, as I will be referring to it and this post will probably not make much sense unless you have read it. As always, I am going to stress this is not the only way to go about automating the process and is only to provide an idea as to what can be achieved. There will also be a little bit of Groovy thrown into the mix for those that are running a user managed version of OAC vs autonomous. A summary of the process that will be automated is: Run a Data Management data load rule to extract planning forecast data, map and then generate a file. Run an Essbase Load rule to load data from file. Before I start out, it is worth pointing out that I going to be using the same forecast year sub var, Data Management and Essbase data load rule that I covered in the last post. For the first part of the process, I want to extract the Essbase forecast sub var. This has been created at application level. The JSON response includes the name and value of the sub var. For Data Management I need to convert this to the start and end period. This is where a script comes into play and can automate the process: Now that the variable has been extracted and transformed, the Data Management load rule can be executed. The idea is to execute the rule with the following values: The job status can then be checked until it completes. Time to convert this into a script which will execute the rule and store the response. The rule has been executed and the response stored, now it is time to keep checking the status until it completes. In the Data Management target options of the rule, a static filename has been set. This is where my example splits: Alternatively, for an autonomous instance which I will cover first, you can download the file to a staging location, an example to do this could be: The file will be available to load to OAC. There are a couple of options available, you could upload the file to the OAC instance and then run a data load rule or use the data load stream option. The streaming option allows you to run an Essbase data load rule but stream in the data, removing the requirement to upload the file first. The body of the post should include the Essbase load rule name. The response will include a URL to post the data to. The data can then be streamed using the returned URL. The response will include URLs to either stream more data or end the data load rule. If there were no errors, a successful message should be returned. If I update the data to include an invalid member and run the data load again. The response will indicate there were records rejected and the filename containing the errors. This file will be available in the Essbase database directory. An example of the error file is: An example of automating the stream data load method using a script could be: I did have some fun trying to get the script to work as it needs to keep a web session active between the start and end of the streaming. If you are interested in what is happening behind the scenes with the data load streaming method, here is an excerpt from the Essbase application log. GL] Parallel dataload enabled: A PUT method is required to the following URL format which includes the name of the file and if you want to overwrite if it already exists: This can simply be converted into a script. After uploading you can then run a load job which I will cover shortly. The user credentials are encrypted to create the basic authentication header for the REST call. A method is then called to make the REST request and download the file. The script can be run from the jobs in the UI. One of the disadvantages at the moment with Groovy in OAC is that parameters can not yet be passed into the script when running as a job. As the script was successful, the output file contains the following: The response includes detailed information about the job and a URL to keep checking the job status. Once again this can be simply converted into a script to automate the process. A script can automatically keep checking the job status, this is a similar concept to the earlier example when checking the status of a Data Management job. Finally, on to running the Essbase load rule to load the data contained in the file. The information returned in the response is similar to running any type of job. The status of the job can be checked until it completes. The beauty of running a data load job compared to streaming data is that the response includes the number of records that were processed and rejected. This part of the process does not take much effort to convert into a script. With scripting you can also automate the

opposite process of extracting data from Essbase and then loading to EPM Cloud. Once a script is in place it can be reused across different data flows by just changing variables. If you are interested in understanding in more detail about how automation can help, please feel free to get in touch.

The life of John Goodwin: comprising an account of the controversies in which he was engaged in defence of universal toleration in matters of religion, and of the universal redemption of mankind by the death of Christ: with a review of several public transactions in Great Britain, during the Civil Wars and the Commonwealth.

Goodwin worked as a journalist from the age of fourteen, and had an unsuccessful journalistic venture in Bath in He left Bath and travelled to Australia, and later on, to America. He was a resident of a village in Bath. He had a widowed mother and two unmarried sisters. He knew short hand and used to earn his living as typist in England, Australia and America. He loved cricket, football and also gambling. In response to the advertisement, twenty-five-year-old Goodwin applied for the job. After the first week Goodwin refused any money, saying, "If Vivekananda gives his life, the least I can do is to give my service. In the weeks between December 9 and December 23 Vivekananda gave at least 20 classes. These lectures were taken down in shorthand by Goodwin. He transcribed them and prepared full lectures for press, while short articles were prepared by another disciple Kripananda. Sara Bull mentioned about Gooodwin and the Harvard lectures in a letter that she wrote to Mr. Goodwin supplied us with the material. They were guests of Mr. Goodwin had a most cordial relationship with Swami Saradananda and also encouraged him to give his first lectures in England. J Goodwin that Good was twenty three or twenty four years old but he looked like that of a thirty five as he had a hard life. His heart was simple and sweet. He loved verbal jousting and if he got no chance to argue with someone he was not happy. He was an ardent British Nationalist and loved cricket and all sports. He supported her during her mediation in the conflict between the Vedanta Society of New York and Mr. T Sturdy of London over the publishing rights of the books of Vivekananda, esp. Muller, another English disciple and host of Vivekananda. Swami Vivekananda wanted Goodwin to start more active work in America, by publishing a magazine and assist others in the study of Vedanta. He even opined against Saradananda teaching Raja Yoga. The first of the letters was written on January 22, India is mad with enthusiasm for him Swami Vivekananda. The people regard him in every sense of the word, as a Divine Incarnation - as I do - and are constantly worshiping him. Sarat Chandra Chattopadhyay, a disciple of Swami Vivekananda and author of the Diary of The Disciple narrated in his book about his first meeting with the Swami where he also mentioned about Goodwin being ever ready to serve the Swami. He helped in the publishing of Brahmavadin and worked with Alasinga Perumal, another disciple of Swami Vivekananda. To earn his living he had taken up a temporary job of a correspondent of a local newspaper Madras Mail. Later he went to Ooty where aftr playing a game of cricket in rain he caught illness and died from the same on 2 June at the age of 27 years. J Goodwin is remembered and honored as a disciple of Swami Vivekananda to whom are owed most of the lectures of the Swami which are written down accurately. Vivekananda had said on Goodwin, He is chosen for my work. What would I do without him! If I have a mission, he is indeed a part of it. Soon after Vivekananda, who was in India at that time, was informed about it. According to Vivekananda researcher Pravrajika Vrajaprana after receiving the death news of Goodwin, Vivekananda was "visibly disturbed". The debt of gratitude I owe him can never be repaid, and those who think they have been helped by any thought of mine ought to know that almost every word of it was published through the untiring and most unselfish exertions of Mr. In him I have lost a friend true as steel, a disciple of never-failing devotion, a worker who knew not what tiring was, and the world is less rich by one of those few who are born, as it were, to live only for others. Alasinga had noted that there were only a few belongings off Goodwin, a bicycle out of order , a watch and a few papers. Sara also wrote a letter that was published in Brahmavadin on June Goodwin are his permanent contribution to us. This young man embodied the integrity and honour of the gentleman to enemy and friend alike, in brief; he was a true Englishman with the spirit of sympathy, responsive to the noble and divine wherever he found it, at home or abroad. Lahore Tribune mentioned about his trips with Vivekananda to Lahore and Jammu in

The life of John Goodwin, A.M., some time fellow of QueensÌ" College, Cambridge, and vicar of Saint StephensÌ", Coleman-street, London. Comprising an account of his opinions and writings, and of the controversies in which he was engaged in defence of religious liberty and of general redemption;.

In he came to London, and on 18 December was instituted to the vicarage of St. He himself sided with the puritans, and at that period inclined to independency under the influence of John Cotton. In Goodwin broached from the pulpit of St. A pulpit controversy with other city ministers on this topic was calmed by Juxon, all parties agreeing to desist. Next year Goodwin angered his opponents anew by insisting on the need of a learned ministry. Juxon reported to William Laud that he did not despair of a good issue. Goodwin had a hand in drafting the London clerical petition against the new canons of 30 June Alderman Isaac Pennington was one of his parishioners, and joined his congregational society. During the next two years he published several sermons, and a tract criticising the positions of George Walker , of St. Walker retorted upon Goodwin and others with a charge of Socinianism in the article of justification. Goodwin defended himself in Christ set forth, and in a treatise on justification. Goodwin immediately set up an independent church in Coleman Street, which had a large following. William Taylor, his appointed successor at St. Goodwin obtained the use of the church, but with a diminished revenue. Among his hearers at this period was Thomas Firmin , who took down his sermons in shorthand. John Goodwin, satirical engraving 18th century. Goodwin defended the most extreme measures of the army leaders. He was one of the puritan divines who, in the interval between the sentence and execution of the king, offered him their spiritual services. Two Hymns or Spiritual Songs were sung in his congregation on 24 October , the thanksgiving day for the victory at the Battle of Worcester. Or the Triers [or Tormenters] Tried His ideas were often anticipations. His rational temper made him the opponent of Seekers and Quakers, and gave him some affinity with the Cambridge Platonists. He rejected the distinction allowed by Acontius, between tolerance of error in fundamentals and in other points. He kept out of the way, and at length was placed in the indemnity, among eighteen persons perpetually incapacitated for any public trust. According to Gilbert Burnet , his comparative immunity was due to his Arminian reputation. This may explain why Burnet wrote that Goodwin was one of these enthusiasts. By his early marriage he had seven children, two of whom died in The Return of Mercies, Impedit ira animum, or Animadversions vpon. Impvtatio Fidei, or a Treatise on Justification, Later edited by John Wesley to combat Calvinist antinomianism. Innocencies Triumph, or an Answer to Innocency and Truth Triumphing, , continuation. A Vindication of Free Grace, , ed. Some Modest and Humble Queries, Jackson. Anapologesia Tes Antapologias, or The Inexcusablenesse of Antapologia, first and only part; against Thomas Edwards. A Candle to see the Sunne, , appendix to Hagiomastix. The Unrighteous Judge, i. The Remedy of Unreasonableness, Jackson. Moses made Angry; a Letter Confidence Dismounted, or a Letter to Mr. Richard Resbury , Jackson. Philadelphia, or XL Queries, , on baptism. The Apologist Condemned, Jackson, a vindication of this work. Dissatisfaction Satisfied in Seventeen. Peace Protected, , amplification; contains a warning against the "fift monarchic" men. The Six Booksellers Proctor Non-suited, Mercy in her Exaltation, , funeral sermon, 20 April, for Daniel Taylor. Triumviri, or the Genius

Chapter 6 : John Goodwin - What History Has Taught Me

The life of John Goodwin, A.M., some time fellow of Queens College, Cambridge, and vicar of Saint Stephens, Coleman-street, London. Comprising an account of his opinions and writings, and of the controversies in which he was engaged in defence of religious liberty and of general redemption;.

It was founded by Henry Ford and incorporated on June 16, The company sells automobiles and commercial vehicles under the Ford brand and most luxury cars under the Lincoln brand. The company is listed on the New York Stock Exchange and is controlled by the Ford family; they have minority ownership but the majority of the voting power. Only of 2, passengers and crew on board survive. There were an estimated 2, passengers and crew aboard, and more than 1, died, making it one of the deadliest commercial peacetime maritime disasters in modern history. RMS Titanic was the largest ship afloat at the time it entered service and was the second of three Olympic-class ocean liners operated by the White Star Line. It was built by the Harland and Wolff shipyard in Belfast. Thomas Andrews, her architect, died in the disaster. George Herman "Babe" Ruth Jr. Ruth established many MLB batting records, including career home runs , runs batted in RBIs 2, , bases on balls 2, , slugging percentage. Ruth is regarded as one of the greatest sports heroes in American culture and is considered by many to be the greatest baseball player of all time. In , Ruth was elected into the Baseball Hall of Fame as one of its "first five" inaugural members. Around 70, people are killed instantly, and some tens of thousands die in subsequent years from burns and radiation poisoning. It was the most global war in history; it directly involved more than million people from over 30 countries. In a state of total war, the major participants threw their entire economic, industrial, and scientific capabilities behind the war effort, blurring the distinction between civilian and military resources. World War II was the deadliest conflict in human history, marked by 50 to 85 million fatalities, most of whom were civilians in the Soviet Union and China. It included massacres, the genocide of the Holocaust, strategic bombing, premeditated death from starvation and disease and the only use of nuclear weapons in war. Launch of Sputnik 1, the first artificial satellite to orbit the Earth. The technological superiority required for such dominance was seen as necessary for national security, and symbolic of ideological superiority. The Space Race spawned pioneering efforts to launch artificial satellites, uncrewed space probes of the Moon, Venus, and Mars, and human spaceflight in low Earth orbit and to the Moon. Martin Luther King Jr. Born in Atlanta, King is best known for advancing civil rights through nonviolence and civil disobedience, tactics his Christian beliefs and the nonviolent activism of Mahatma Gandhi helped inspire. Star Wars is a American epic space opera film written and directed by George Lucas. It is the first film in the original Star Wars trilogy and the beginning of the Star Wars franchise.

Chapter 7 : CNN Hottie S. E. Cupp's Married life--Boyfriend-Turned-Husband John Goodwin and Their Bab

John Goodwin () was an English preacher, theologian and prolific author of significant books.

The post also covered an alternative way of executing processes in FDMEE by calling a Java Servlet which behind the scenes is basically the same method the command batch scripts use. In this first part I will show how simple it is to execute data load rules and batches using the REST API, now I did cover this previously for the cloud and it is pretty much the same principal for on-premise but I thought I would go over it again to clear any confusion. In the examples I will use a REST Client boomerang for Chrome and for scripting PowerShell, I have said this before but I have only picked them because I find them easy to use and good for demonstration purposes, the beauty is there are many different clients and scripting languages that can take advantage of REST so just use the one you are most comfortable with. I have the following data load rule which has a source file and target planning application. Another of the new features in the PSU is the ability to load non numeric data, once again I have covered this is in the cloud but this is a good time to test out the functionality for on-premise FDMEE. For this example, I have created a Text, Date and Smart List member in the target planning application. The source file has the three members and data with the equivalent data type There is also a form to verify that the non-numeric data has been loaded correctly. This means that accumulate and replace by security are not there, if you need to use those export values then as a workaround you can create a batch in FDMEE and use the REST resource to run the batch. For the data load rule I am going to execute the parameters translate into the following: The request can be sent and a response will be returned with parameters and values in JSON format which provide information about the job. Back to my form in planning and the non-numeric data has been loaded correctly, so that is two pieces of new functionality tested in one go. Converting this into a script is a simple task, with not much effort and a small amount of code an FDMEE data load rule can be executed. To keep checking the status the URL in the returned href parameter can be stored and then a request made using the URL. Moving on to the next REST resource and that is the ability to run batches. For my example I have the following batch created which just executes the same load rule as the previous example. Only a couple of input parameters are required in the body of the request to the resource. For my example this translates to the following request in the REST client: Just like with the data rule a response is returning containing all the job information. The response will only contain the details of the main batch process and not the ID of the jobs that are part of the batch, this is not really a problem as you would only really be interested in the status of the overall batch process. As the job ID of the batch is returned and you will already know the order of the jobs then you could easily check the details of each of the jobs in the batch. In terms of scripting then the code would be pretty much similar to running a data load and the only difference being less parameters are required in the body of the request. One thing that would be beneficial that is not included in the REST responses is the start and end times of the processes, maybe Oracle will include them at some point in the future.

Chapter 8 : Wayne John Goodwin Obituary - Norwich, CT

Dr. John F. Goodwin It is with sadness that we announce the passing of our Dad, Grampa and friend, Dr. John "Jack" Goodwin who left this life Monday August 14th, , after a brief illness. Jack was a lifelong New Britain resident born to Dr. Frank X. Goodwin and Martha (Nugent) Goodwin on February 2,

Flowers John Goodwin was born in Sligo, Ireland. He was baptized in St. He married Sarah Smith 11 April in St. Their first two of fourteen children were born in Hamilton, Ontario, while the other children were born in Minnesota. John was a farmer much of his life. In the census he was living in Judson, Blue Earth County, Minnesota and his occupation was listed as "running ferry. Information by Nancy Lang. He was born of English parentage, at Sligo, Ireland, on September 3, His father was a captain in the English army and was stationed in Ireland at the time. Goodwin came to Montreal, Canada as a child. He married Sarah Smith on April 11, in Montreal. In the spring of , Mr. Goodwin and his brother-in-law, Robert Patterson, preempted land. They laid out the town site of Judson and it was annexed in December, Goodwin was postmaster at Judson, and when the township was organized, was made one of the first justices of the peace. A few years after the Indian uprising and massacre of , Goodwin left Judson and moved his family to Mankato, and except for a short time spent in St. Paul, made Mankato his residence. Goodwin was a modest, unpretentious man, of good abilities, and excellent character, highly respected by all who knew him. He is survived by his wife, Sarah, seven daughters and three sons: Interment was in the Glenwood cemetery. Information from Mankato, Minnesota newspapers and family research. John Goodwin was born in Sligo, Ireland.

Search the history of over billion web pages on the Internet.

Theatre career[edit] In Goodwin became assistant to David Fairweather, a well-known press representative for many West End Theatres. From â€" 56 he represented the annual Shakespeare season at Stratford-upon-Avon during the great post-war Shakespeare renaissance there. In he was asked to re-join the Stratford Company and that year, with them, visited Moscow and Leningrad St Petersburg. From its creation in by its then director Peter Hall, and for fourteen further years, Goodwin was head of press and publications for the Royal Shakespeare Company. In he was asked [10] by Sir Peter now director of the National Theatre to move to the National and take up the same post there, a position he held until In these two appointments he saw theatre history in the making. Both companies were staging productions of arguably unsurpassed brilliance, while achieving massive expansions. These changes are now widely regarded as having been wholly beneficial but, at the time, each met with a storm of media criticism, due mainly to the increased cost in public money. Also at the RSC, together with the graphic designer George Mayhew, he invented and perfected the revolutionary style of programmes [21] which combined expert comment with vivid graphics, a format which was later taken up by virtually all subsidised theatres. Goodwin, deputy head of Inland Revenue at Somerset House. His maternal grandparents were E. Lonnen , a star of the old Gaiety Theatre , and Emily Morgan, a dancer. Previous generations were strolling players. When Goodwin was three his father died unexpectedly. In , Jessie and her twins, now aged five, moved from London to the country. He and Fay would give weekend parties [24] lasting far into the night, often attended by stars, among whom Goodwin remembers Jack Buchanan , [25] Elsie Randolph and Boris Karloff. In he joined the Royal Navy as a rating ordinary coder and served at sea in the North Atlantic and the Arctic. In the destroyer HMS Chiddingfold he took part in the combined operation raid against German military bases in Vaagso , Norway â€" a notable allied success of the early war years. In he was sent East, prepared for serious action, but saw none for the war with Japan ended that summer. The couple met in and were together as man and mistress, later man and wife, until Suzanne died in During much of that time they spent up to three months each year working and enjoying life in their modest 17th century apartment in the South of France. A stepson James d. A stepdaughter, Marigold, adopted by Suzanne and her first husband.
