Bliss soon finds herself tangled in an ongoing feud after unintentionally falling into the grasp of an angry Falcon Prince and begins to question Lunars history with the Falcons Rated: Bliss rubbed her eyes sleepily as she was hurried down one of the large hallways in the palace. Just moments ago she had been awoken out of her slumber by the palace guards who refused to tell her what was going on. Inside she found her mother, the Queen of Lunar, and her father, the King of Lunar, sitting at the edge of the bed starring at each other worriedly. It had only been a few hours ago that they had said their goodbyes as her parents left the court on business. Her mother cried out when she saw her daughter and ran over to her, wrapping her into a tight embrace. Her mother took her hand and led her over to the bed. The luggage carriers left an hour ahead of us and we were supposed to meet them there. As we traveled along the road, we came upon the carriage and found the two drivers killed. We must keep you safe, and the only way to do that is to get you out of the kingdom and away from such dangers that are arising. She and her grandfather live on the outskirts of the kingdom," her mother said. Her father leaned down and also placed a kiss a top her head. Bliss nodded, trying not to cry at the sudden goodbye. This would be a huge change for all of them, but a bigger one for her. She silently followed Austin down the same long hallway, but this time the walk seemed much shorter than just a few moments ago; everything was taking place so quickly. She vaguely remembered Austin helping her into the carriage and wishing her a safe trip. After placing a friendly kiss upon her hand, he directed one of the Moon Dancers, the protectors of the royal court, to take her away. She was exhausted by the events that took place and soon fell asleep as the carriage ventured into the dead of night. Living with Alanna was more than she expected it to be. The two girls became inseparable within the first few weeks of Bliss living there. Alanna thought it best for Bliss to use her middle name, Lilith, for safeties sake. She was now known as Lily Armedelo. Lily and Alanna finished their daily chores early and decided to spend the rest of the beautiful summer day outside exploring the woods near by her home. Alanna squealed in delight. She immediately slowed to a walk, examining her surroundings. She listened for a response, but was left unanswered. A twig had snapped nearby, but before she could turn to see if Alanna had been trying to play another one of her games on her, she was grabbed from behind. A strong arm snaked tightly around her waist, prohibiting any movement, while a gloved hand clamped over her mouth. Was he one of the disloyal Falcons her parents told her about? Whoever he was, she knew he was dangerous and she had to get away. The man cried out in surprise, unconsciously releasing his hold of Lily. Lily jumped out of his reach and turned to stare at him. Lily backed away from the man, attempting an escape from the weapons reach. Unfortunately, her back collided with the ragged bark of a tree. Her captor was immediately upon her, the blade of the sword at her throat. He smirked at her as he drew the deadly weapon back until it lined with her heart. The man looked at her in confusion; Lily took the chance to speak. The mans confused expression turned to one of malice as he stared at her. Therefore, you must be punished," he whispered angrily, readying to strike. The man narrowed his eyes and stared at her quizzically as he lowered his weapon and took a step forward. Lily obliged and turned to face the tree that prevented her escape. She felt the mans fingers carefully push aside her chestnut curls, revealing her neck to him. A moment later, her hair fell back into place. Lily thought for a moment and realized what he was speaking of; all Moon Dancers wear a moon crescent on the nape of their neck. The man once again raised his sword, causing Lily to automatically push herself against the tree in some effort to distance herself from the stranger. He had midnight black hair that gently fell to frame his golden complexion. His emerald eyes danced in the limited sunlight that shone through the tree tops. He wore a simple pair of black pants and a black top cloaked under a large cape, creating an intimidating air about him. M-my name is Lily Armedelo," she stammered hesitantly. He spun around to face her, annoyance written on his face. Lily began to fidget uncomfortably under his gaze while speaking quietly. With that said, he turned and walked away. The nineteen year old stared at his retreating figure in confusion. Lily stared at him with fear-filled eyes. Sensing

what was to come, Lily took off at a sprint back into the woods. Lily ran as fast and as far as her feet could carry her. Why are we still running? Once home, Alanna locked all the doors and windows in the house. And I was foolish enough to call out your name! All we have to do is not tell Grandpa!" "No. Telling Papi is definitely out of the question. There was a sudden knock on the door and both girls shrieked, grabbing a hold of each other. Girls, are you in there? Alanna opened the door to let him in, making sure to lock it immediately after he was in. After eating, the girls said they were tired and retired to bed early. Once upstairs, Alanna threw herself on Lily in a tight embrace. Alanna let go of her cousin and sighed. In case you change your mind, my door will be open. She turned on her light and scanned her room for any sign of danger. Seeing none, she went over to her window and opened it, deciding to get rid of the stuffiness from the days earlier summer heat. There was something about the Falcon that she was drawn to. Lily tried to shake herself of the feeling and crawled into bed, snuggling deep into the confinements of her blankets. As Lily slept, a dark shadow loomed outside her window. Its shining eyes watching the girl closely, thinking back to their encounter. He remembered her glassy eyes filling with fear from the sight of him, her petite frame struggling against his body as he held her from escaping, the feel of her soft curls run through his fingers. He shook his head, ridding his mind of such thoughts; he had a mission to accomplish. A promise he had made with his birth. He would destroy the Lunar court, and Bliss will go down with her kingdom. The dark shadow silently disappeared from its place on the windowsill and took off into the summer night. The author would like to thank you for your continued support. Your review has been posted.

First in Corti-Petska's Italian Medieval Series set in 15th century Renaissance Italy, this tells the story of the "lily," Bianca Albizzi, who is forced to marry the handsome young Medici heir, the "falcon," Cristiano de'Medici, to end the rivalry between their two powerful families.

Biography[edit] Early life: In , Arlen was born as the youngest child of five, having three brothers, Takvor, Krikor, and Roupen, and one sister, Ahavni. We know however what led Arlen to London, where he would make his break into a literary career. In *The London Venture*, Arlen writes: I only stayed there a few months; jumbled months of elementary medicine, political economy, metaphysics, theosophy--I once handed round programs at an Annie Besant lecture at the Usher Hall--and beer, lots of beer. Bulgaria being allies with Germany made England suspicious of Arlen, who could neither be naturalized as a British citizen, nor change his name. In London, Arlen found company in modernist literary circles with others who had been looked upon suspiciously or had been denied military service. Among these were Aldous Huxley , D. Lawrence , Nancy Cunard , and George Moore. The beginnings[edit] Arlen began his literary career in , writing under his birth name, Dikran Kouyoumdjian, first in a London-based Armenian periodical, *Ararat: A Searchlight on Armenia* , and soon after for *The New Age* , a British weekly review of politics, arts, and literature. For these two magazines, Arlen wrote essays, book reviews, personal essays, short stories, and even one short play. From this moment onwards, he began to sign his works as Michael Arlen. In , he naturalized as a British citizen and legally changed from his birth name to Michael Arlen. *A Romantic Chronicle of These Days*. The volume also introduced a gentleman crook reminiscent of Raffles in the story "The Cavalier of the Streets". The title of another story, "When a Nightingale Sang in Berkeley Square", was the inspiration for the popular song of the same name. *The Green Hat*, published in *The Green Hat* narrates the short life and violent death of femme fatale and dashing widow Iris Storm, owner of a yellow Hispano Suiza as well as the green hat of the title. Arlen adapted the novel for a Broadway play [7] starring Katharine Cornell and Leslie Howard in his most successful Broadway appearance to date. Because *The Green Hat* was considered provocative in the United States, the movie was not allowed to make any references to it. It was adapted a second time in , as *Outcast Lady* , with Constance Bennett and Herbert Marshall in the main roles. After the publication of *The Green Hat*, Arlen became almost instantly famous, rich, and as with celebrities today, incessantly in the spotlight and newspapers. During this period of his fame, the mids, Arlen frequently travelled to the United States and worked on plays and films, including *Dear Father* and *These Charming People*. Naturally, after all this fame and attention, Arlen felt somewhat anxious to write the book that would follow *The Green Hat*. Notwithstanding, Arlen wrote *Young Men in Love* and received mixed reviews. *Off to America*[edit] In , Arlen, feeling ill, joined D. They had two children, a son, Michael John Arlen born in , and a daughter, Venetia Arlen, born in Set fifty years in the future, in , the book can be seen as portraying a Dystopia , whose rulers claim that it is a Utopia. In the following years, Arlen also returned to gothic horror with *Hell! A Bed-Time Story* In his final collection of short stories, *The Crooked Coronet* , Arlen briefly returns to his earlier romantic, but also comic, style. Renamed Gay Lawrence and nicknamed the Falcon, the character was taken up by Hollywood in and expanded into a series of mystery films with George Sanders in the title role. He died of cancer on June 23, , in New York.

THE LILY AND THE FALCON is a romance that suspends time. I became enraptured with the story in less than five minutes. It starts off at a quick pace and the.

These shows will run anywhere between six to eight episodes apiece. Importantly, rather than rely on the resources of Marvel Television which makes Agents of S. Neither the Mouse House nor Marvel Studios are concretely confirming anything remotely related to these off-shoots. That said, what makes the Falcon-Winter Soldier vehicle more of a sure bet even in its preliminary stages lies in the fact that a writer has been hired to tackle the series. Malcolm Spellman, who is best-known for his work on Empire, will reportedly write the show. Frankly, as there is constantly a ton to look forward to when it comes to the MCU, holding off on all kinds of excitement until we know more about this Falcon-Winter Soldier series would be a logical response. The Sam and Bucky team-up is, in and of itself, a great place to anchor a series. Mackie and Stan showcase tons of vibrancy and infectious personality when Sam and Bucky get to fight side-by-side in Captain America: The results are good-natured and hilarious, too. Nevertheless, the scenes that he shares with Sam are peppered with snarky levity. Of course, there is tension and suspicion between both characters as well, which feasibly draws out enough drama for six to eight episodes of TV. Really, Sam just deserves more backstory, in general. The Winter Soldier due to all the moving parts present in that film. Comparatively, Bucky has been given more screen time. In turn, could Bucky still have more than his fair share of demons to fight moving forward? Granted, he spends a fair amount of time recuperating in Wakanda. When we next see Bucky in Avengers: Infinity War, he already seems healed and at ease. He smiles in that movie! Yet, given that the Falcon-Winter Soldier series will likely be set in the aftermath of Avengers 4, something definitively big and probably sad is bound to happen to Captain America as we know it. That may or may not introduce trauma into the dynamic yet again. Both Sam and Bucky are known to pick up the vibranium shield at some point in the comics. In short, the big question I have going into this limited series is who would these characters be without Steve as a present common denominator?

The Lily and the Falcon Guest Author: Jannine Corti Petska. May 24, March 15, by VanessaKelly. I have a fun return guest blogger today.

Health and Vitals Blood type: The first person she met in town was a boy her own age, Dusty Donovan. Though Dusty initially saw Lily as a spoiled brat, he became impressed with her knowledge of horses and they became fast friends. Lucinda wanted Lily to be with someone more socially acceptable and forced Lily to attend a party with a preppy named Harrison Blake. Jealous, Dusty crashed the party and started a fight with Harrison when he overheard Harrison brag about how much of an easy score Lily was. When Lucinda confronted a confused Lily, who had no idea what was going on, Lily denied that Harrison had been bothering her, and Dusty was thrown out. Finally fed up with her unreasonable mother, Lily made plans to run away and got only as far as the stables when she decided to call Dusty to tell him where she was. Fortunately, Dusty rescued her in time. After a period of months, Lily started spending more and more time with Holden and his family at the Snyder Farm. After spotting Holden at the Snyder pond with a pretty girl, Lily became jealous and rudely snubbed her competition. Meg decided to get even with Lily and set her sights on Dusty, who had recently returned to Oakdale. In addition to kissing Dusty when they first met at the farm, Meg also manipulated John into thinking that Lily was distracting Dusty, thus endangering his chances of getting into Harvard. Feeling enormous pressure from John about getting into Harvard, Dusty skipped his high school graduation banquet and ran off to New Mexico, with Meg following. After the pair made love, they returned to Oakdale. However, Meg was anxious to get Dusty for herself and decided to trap him into marriage by claiming to be pregnant. Trying to be noble, Dusty agreed to marry her and then told Lily the story. Not wanting to hurt her mother, Meg complied. It was then that Iva was forced to admit her deep, dark secret--at the age of 13, she had been brutally raped by her cousin, Josh Snyder, who was Rod Landry, and had run off. She had become pregnant and had given birth to a little girl who she gave up for adoption--that girl was Lily. Shocked beyond belief, Lily told Iva she hated her and then ran away. Meanwhile, Holden and Dusty both went off to look for Lily, and Dusty managed to find her first. After he called John to report that Lily was fine, he and Lily made plans to run off together, but Holden found them. When Lily learned that Dusty had phoned John, she shunned Dusty and sought comfort with Holden and returned home. Free to be together, the pair made plans to marry, however Lucinda disapproved of Holden more than Dusty and decided to put a stop to the relationship by telling Lily that Holden had known the truth of her parentage all along. Angry and hurt, Lily broke up with Holden and turned to Dusty, with whom she lost her virginity. Soon after, Dusty convinced her to return to Oakdale and then left for college himself. Lily and Holden went their separate ways and pursued different relationships. After his divorce from Emily Stewart, Holden tried to get back together with Lily, but a series of events led him to believe that she was in love with his brother, Caleb. Holden and Caleb had always had a strong sibling rivalry, and Holden was disgusted to learn how Caleb had callously dumped a pregnant Angel Lange, who had gotten a botched abortion. Lily grew closer to Caleb, but Holden continued to believe that Caleb was just using Lily for her money. Fed up with the situation, Holden quickly left town to sort out his life. Eventually Lily married Derek Mason. Unbeknownst to everyone, he and his father, Niles, were conspiring to kill Lily to get her money. Their plan almost worked when Derek married Lily; he convinced her to change her will and leave him as the sole beneficiary. Despite his plan, Derek started to actually fall in love with Lily and told his father the deal was off. Badly burned from the explosion, Lily briefly left town. When Lily returned to town, she was very cold and cynical. Shutting herself off emotionally, she decided to concentrate on business and became involved in loveless affairs. However, eventually she softened, and Lily and Holden finally married. Lily was ecstatic when she became pregnant. Sadly she miscarried and went into a deep depression. Holden then suffered a severe head injury while in New York on business and lost his memory. Even though Lily tried very hard to help Holden regain his memory, he could not remember her or their many years together. So he asked her for a divorce. Lily, devastated, left Oakdale to live in Europe. They decided to move back to Oakdale together to be close to her family. By that time, Holden

had started having memory flashbacks of Lily and wanted to renew his friendship with her. Lily found herself still attracted to Holden, but was conflicted about whom to be with. In November, their reunion had to wait because a man named Hans kidnapped Lily. After that ordeal, Lily decided to give her marriage to Damian another try, despite her strong attraction to Holden. Although initially kind to Lily, Orlena was an evil woman who did not think that Lily was worthy of her son and did everything that she could to tear the couple apart. At the same time, Damian was very jealous of Holden. However, she and Damian reconciled and, months later, Lily was shocked to discover that she was pregnant. Lily could not be sure if Holden or Damian was the father of her unborn child. Soon after, in early, Lily and Holden took separate sides in the case Lisa brought against John Dixon. Lisa believed John was guilty of malpractice in the death of Eduardo. Holden rightly suspected Orlena as the true culprit. The case even caused problems between Lily and Lucinda, since Lucinda believed John was innocent. Months later, Holden arrived at the Snyder farm to find Lily alone and in labor and delivered her son, Luciano, also known as Luke. In the meantime, Orlena drugged and gas-lighted Lily. Luckily, she was ultimately rescued and she and Damian became closer. Lily was truly devastated when she thought that Damian had died in a plane crash. Later, Lily found evidence that suggested that the crash that had killed Damian might not have been an accident. Lily learned that Damian was investigating one of his associates, Umberto Malzone, for conducting illegal business activities, and Lily was convinced that Umberto had killed Damian. Desperate to learn more about the man who had killed her husband, Lily developed a close relationship with Diego and even agreed to marry him. Then one day, she overheard an argument between Diego and Pilar Domingo and found out that Diego was Umberto. Sickened, Lily got a gun and made plans to make him pay at their wedding. After the ceremony, the lights went out, and a gunshot went off. When the lights came back on, Diego was dead, and Lily was holding the gun. Although Lily was found guilty of the crime and was convicted, the conviction was later overturned when it was learned that the real killer was Kirk Anderson. Lily and Holden bonded again and made plans to marry. Molly had a child with Holden when they were teens and confessed to Holden that she had given the girl up for adoption. However, her plans failed and all she succeeded in doing was alienating herself from both Holden and Lily. Meanwhile, Lily learned that Damian had not died, yet she chose to remain with Holden, her true love, and they married. She gave birth to a girl while being held captive. Lily and Holden searched for their real baby and tried to work things out with Denise so that they could keep baby Hope and raise her as their own. The Snyders finally found their daughter, who David was raising and had named Melinda. Holden and Lily renamed the girl Faith and took her home to Oakdale. Then one night, she met a man named Simon. Lily believed Simon was a good man and asked him to renovate her house after learning he was an architect. Lily soon found her trust in Simon was misplaced, when she found an old photo of a woman who looked exactly like her. Realizing that Simon had lied to her all along, she decided to investigate the woman in the picture and learned that the woman was probably her great-great-grandmother. Her search for more information led her to a woman in Atlantic City named Rose. Though Rose claimed to know nothing of her family history, Lily knew they were connected for one reason: Then Lily learned why Simon was so interested in her; he wanted the diamond that his great-grandfather had given his beloved before she was shipped off. Deciding that the diamond belonged to Rose and not Simon, and believing that it held the key to how Lily and Rose were connected, Lily decided to keep Simon off the trail by switching places with Rose. The plan almost worked. However when Simon confronted both women shots, suddenly rang out. Then Lily was knocked unconscious and by the time she awoke, she was on a train with Simon. Soon the mysterious shooter kidnapped Lily. Though Simon found Lily and tried to rescue her, he was too late, and they were both held hostage. When Celia learned that Lily knew nothing about the diamond, she deemed Lily expendable and decided to murder both Lily and Simon by forcing them to jump out of a plane. After evading an assassination attempt by Celia, Simon and Lily were able to imprison her. It was during the imprisonment that Lily learned that no one knew she was missing, since Rose was back in Oakdale, masquerading as Lily. Eventually Celia escaped and tried to leave the island on the raft that Simon was building. Tragically a large current came and capsized the raft, sending Celia and the beloved diamond, which Lily had unknowingly had in her pocket all along, to a watery grave. Wanting to comfort Simon at the loss of his sister and uncertain about whether she would ever see home again, Lily kissed Simon. It was at that

moment that Holden arrived to rescue them. Though Holden was upset about seeing the castaways kiss, Lily was more upset that Holden had never realized that Rose was an impostor.

Read "The Lily and the Falcon" by Jannine Corti-Petska with Rakuten Kobo. Bianca degli Albizzi is outraged when sworn enemy Cristiano de'Medici asks for her hand in marriage.

It premiered on October 27 , and is the fourteenth episode in the fourth season. Suddenly, a rat named Twitch appears before her and reveals that he is a strangling, a shapeshifter, which he proves by using his powers. Prisma asks Twitch to retrieve the Locket and gives him instructions to pick the crystal lock. Twitch does as Prisma instructs and gets her the Locket. Prisma thanks Twitch and promise to share whatever power the Locket gives her. She then puts the Locket on and opens it, releasing a spirit trapped inside. The spirit is happy to be free and asks what powerful creature freed her, to which Prisma reveals that it was her. The spirit knows Prisma has no power, to which Prisma reveals that is why she needs her power to break free. The Spirit tells Prisma that if she gathers all nine objects and brings them to her she will use their power to restore her own. After Prisma remembers she cannot get out, Twitch offers to retrieve them for her since he has always wanted a powerful master and has picked Prisma. After Twitch leaves to get it, two of the Protectors come in and discover that the Locket of Vor has been stolen and alert the other Protectors. Vega contacts Sofia and Chrysta and informs them of the theft, and how the Wicked Nine are being sought out by the thief. When they find the sword, they decide to set a trap for the thief. Jin and Jun show up and Sofia decides to tell them what is going on. Chrysta, however, is against getting them involved and insists that they are left out of it on the grounds that it is Protector business. When Kai dances in front of the spot, Chrysta orders Sofia to make him leave, which she politely does. Twitch tries to get the sword and falls into the trap. He turns himself into a skunk before Sofia and Chrysta arrive, causing them to dismiss it as a false alarm. Chrysta tells Sofia that the thief is probably a bad guy wearing the locket. Hearing this, Twitch drops a bunch of lockets on the ground to create a distraction. A man picks up one of the lockets and puts it on. When they see the man, Sofia and Chrysta assume he is the thief only to discover it is Emperor Quon. He then turns himself into a bat and flies away. Kai, who witnessed the theft, tells them what he saw. Chrysta deduces that the thief is a strangling which she declares will be difficult to catch. She is unhappy with Kai not warning them, but he says he did not know they need to catch a thief and it is understandable because Chrysta ordered Sofia not to ask anyone else for help. This makes Chrysta realizes that just because she is the trainer, she does not always know best so Sofia comes up with a plan and brings in Jin and Jun to help and the group chases Twitch all over Wei-Ling. They corner him at a wall, which he goes through a hole. Meanwhile, Twitch delivers the Necessi-Key to Prisma, who uses it to break free and escape. Vega agrees and dispatches the other Protectors to do that. Meanwhile, Prisma is making her next move to regain her powers and get her revenge.
