I don't speak Korean so I have no information about the accuracy of the translation. I bought this for a dear friend who loves The Little Prince, solely for the illustrations.

He went back to his home planet and that stupid rose. Later that night, I quietly reread the book and the sad truth clicked, and so did the belated thought that for all the gentle berating of adults in it, this strange and beautiful book was written by one of them and definitely for them, and not for me, and by luring me in with the beautiful pictures it pushed me just a bit further on the inevitable road to adulthood. Or so I see now. And that finally made me cry. And then I went back to the simple security of childhood. Then I grew up, inevitably, like most of us do. I learned the painful understanding of why certain vain but naive roses can hold such sad power over our hearts. I learned the comfort and longing of nostalgia, the fear of the crushing burden of loneliness, the understanding of fragile beauty of the world that can be so easily taken away at any moment. I became a grown-up, and I have to learn to reconcile my inner child with my outer age. I have lived a great deal among grown-ups. I have seen them intimately, close at hand. I sigh and tear up, and try to resist the urge to pick up the golden-haired child that never stopped until he got answers to his questions and carry him away into safety. Because if I do so, there will never be billion bells in the stars, and we will never wonder whether the rose is still alive - and it needs to be, because we are responsible for those we have tamed. I remembered the fox. One runs the risk of weeping a little, if one lets himself be tamed. Because they have met their Roses, and Foxes, and drank from a well with a rusty handle in the desert, and learned that a few thorns may not stand against the claws of a tiger. Unlike the Little Prince, they can no longer go back - but they can look at the night starry sky and laugh, and imagine that they hear an answering clear laughter. But that is something that will not be my fault. My friend never explained anything to me. He thought, perhaps, that I was like himself. But I, alas, do not know how to see sheep through the walls of boxes. Perhaps I am a little like the grown-ups. I have had to grow old.

Chapter 4 : The Little Prince (Kor + Eng +French)

About This Book Enjoy The Little Prince in both English and Korean texts Antoine de Saint-Exupéry first published The Little Prince in , only a year before his Lockheed P vanished over the Mediterranean during a reconnaissance mission.

Plot[edit] The narrator begins with a discussion on the nature of grown-ups and their inability to perceive, especially important things. As a test to determine if a grown-up is enlightened and like a child, he shows them a picture he drew at age 6 of a snake which has eaten an elephant. The grown-ups always reply that the picture is of a hat, and so he knows to talk of "reasonable" things to them, rather than fanciful. The narrator becomes a pilot , and, one day, his plane crashes in the Sahara , far from civilization. He has 8 days of water supply and must fix his airplane to be saved. In the middle of the desert, the narrator is unexpectedly greeted by a young boy who is nicknamed as "the little prince". The prince has golden hair, a lovable laugh, and will repeat questions until they are answered. Upon encountering the narrator, the little prince asks him to draw a sheep. After three failed attempts at drawing a sheep, the frustrated narrator simply draws a box, claiming that the sheep the prince wants is inside the box. Over the course of eight days stranded in the desert, while the narrator attempts to repair his plane, the little prince recounts the story of his life. The prince begins by describing life on his tiny home planet: If the baobabs are not rooted out the moment they are recognized, it may be put off until it is too late and the tree has grown too large to remove, its roots having a catastrophic effect on the tiny planet. The prince wants a sheep to eat the undesirable plants, but worries it will also eat plants with thorns. The rose is given to pretension, exaggerating ailments to gain attention and have the prince care for her. The prince says he nourished the rose and attended her, making a screen or glass globe to protect her from the cold wind, watering her, and keeping off the caterpillars. Although the prince fell in love with the rose, he also began to feel that she was taking advantage of him and he resolved to leave the planet to explore the rest of the universe. She wishes him well and turns down his desire to leave her in the glass globe, saying she will protect herself. The prince laments that he did not understand how to love his rose while he was with her and should have listened to her kind actions, rather than her vain words. The prince has since visited six other planets , each of which was inhabited by a single, irrational, narrow-minded adult, each meant to critique an element of society. A king with no subjects, who only issues orders that can be followed, such as commanding the sun to set at sunset. A narcissistic man who only wants the praise which comes from admiration and being the most-admirable person on his otherwise uninhabited planet. A drunkard who drinks to forget the shame of drinking. A businessman who is blind to the beauty of the stars and instead endlessly counts and catalogs them in order to "own" them all critiquing materialism A lamplighter on a planet so small, a full day lasts a minute. An elderly geographer who has never been anywhere, or seen any of the things he records, providing a caricature of specialization in the contemporary world. It is the geographer who tells the prince that his rose is an ephemeral being, which are not recorded, and recommends that the prince next visit the planet Earth. The visit to Earth begins with a deeply pessimistic appraisal of humanity. The six absurd people the prince encountered earlier comprise, according to the narrator, just about the entire adult world. On earth there were " kings. He then met a yellow snake that claimed to have the power to return him to his home, if he ever wished to return. The prince next met a desert flower, who told him that she had only seen a handful of men in this part of the world and that they had no roots, letting the wind blow them around and living hard lives. After climbing the highest mountain he had ever seen, the prince hoped to see the whole of Earth, thus finding the people; however, he saw only the enormous, desolate landscape. When the prince called out, his echo answered him, which he interpreted as the voice of a boring person who only repeats what another says. The prince encountered a whole row of rosebushes, becoming downcast at having once thought that his own rose was unique and that she had lied. He began to feel that he was not a great prince at all, as his planet contained only three tiny volcanoes and a flower that he now thought of as common. He lay down on the grass and wept, until a fox came along. The fox desired to be tamed and teaches the prince how to tame him. By being tamed, something goes from being ordinary and just like all the others, to being special and unique. There are drawbacks, since the connection can lead to sadness and longing when apart. Upon their sad

departing, the fox imparts a secret: The prince finally meets two people from Earth: A railway switchman who told him how passengers constantly rushed from one place to another aboard trains, never satisfied with where they were and not knowing what they were after; only the children among them ever bothered to look out the windows. A merchant who talked to the prince about his product, a pill that eliminated the need to drink for a week, saving people 53 minutes. The prince has become visibly morose and saddened over his recollections and longs to return home and see his flower. The prince finds a well, saving the pair. The narrator later finds the prince talking to the snake, discussing his return home and his desire to see his rose again, whom he worries has been left to fend for herself. The prince bids an emotional farewell to the narrator and states that if it looks as though he has died, it is only because his body was too heavy to take with him to his planet. The prince warns the narrator not to watch him leave, as it will upset him. The prince then walks away from the narrator and allows the snake to bite him, soundlessly falling down. He finally manages to repair his airplane and leave the desert. It is left up to the reader to determine if the prince returned home, or died. The narrator requests to be immediately contacted by anyone in that area encountering a small person with golden curls who refuses to answer any questions. Tone and writing style[edit] The story of *The Little Prince* is recalled in a sombre, measured tone by the plot-narrator, in memory of his small friend, "a memorial to the prince" not just to the prince, but also to the time the prince and the narrator had together". The fantasy of the *Little Prince* works because the logic of the story is based on the imagination of children, rather than the strict realism of adults". According to the author himself, it was extremely difficult to start his creative writing processes. His survival ordeal was about to begin Egypt, In *The Little Prince*, its narrator, the pilot, talks of being stranded in the desert beside his crashed aircraft. They both began to see mirages , which were quickly followed by more vivid hallucinations. By the second and third days, they were so dehydrated that they stopped sweating altogether. The fearsome, grasping baobab trees, researchers have contended, were meant to represent Nazism attempting to destroy the planet. Consuelo was the rose in *The Little Prince*. I should never have fled. I should have guessed at the tenderness behind her poor ruses. The author had also met a precocious eight-year-old with curly blond hair while he was residing with a family in Quebec City in , Thomas De Koninck , the son of philosopher Charles De Koninck. Late at night, during the trip, he ventured from his first-class accommodation into the third-class carriages, where he came upon large groups of Polish families huddled together, returning to their homeland. Between the man and the woman a child had hollowed himself out a place and fallen asleep. He turned in his slumber, and in the dim lamplight I saw his face. What an adorable face! A golden fruit had been born of these two peasants This is the child Mozart. This is a life full of beautiful promise. Little princes in legends are not different from this. Protected, sheltered, cultivated, what could not this child become? When by mutation a new rose is born in a garden, all gardeners rejoice. They isolate the rose, tend it, foster it. But there is no gardener for men. This little Mozart will be shaped like the rest by the common stamping machine This little Mozart is condemned. He started his work on the novella shortly after returning to the United States Quebec, His intention for the visit was to convince the United States to quickly enter the war against Nazi Germany and the Axis forces , and he soon became one of the expatriate voices of the French Resistance. In the midst of personal upheavals and failing health, he produced almost half of the writings for which he would be remembered, including a tender tale of loneliness, friendship, love and loss, in the form of a young prince visiting Earth. He wrote and illustrated the manuscript during the summer and fall of Although greeted warmly by French-speaking Americans and by fellow expatriates who had preceded him in New York, his month stay would be marred by health problems and racked with periods of severe stress, martial and marital strife. After spending some time at an unsuitable clapboard country house in Westport, Connecticut , [51] they found Bevin House, a room mansion in Asharoken that overlooked Long Island Sound. His meditative view of sunsets at the Bevin House were incorporated in the book, where the prince visits a small planet with 43 daily sunsets, a planet where all that is needed to watch a sunset "is move your chair a few steps. In addition to the manuscript, several watercolour illustrations by the author are also held by the museum. They were not part of the first edition. What is essential is invisible to the eye" was reworded and rewritten some 15 times before achieving its final phrasing. Multiple versions of its many pages were created and its prose then polished over several drafts, with the author occasionally telephoning friends at 2: Included
