*"The Power of Adversity is a courageous book in which legendary businessman and philanthropist Al Weatherhead describes how adversity--properly understood--can be a catalyst for powerful and meaningful personal transformation. Read it and be inspired--for yourself and for someone you love.*

We know this from experience. We soon recognized a familiar pattern – immigrant founders consistently proved to be uniquely savvy, determined and energetic. Some come from small villages in countries with billions of people and had to beat the odds to arrive in the U. In leaving their homeland, immigrants arrive in a new country as nobodies: Go big or go home. Of course, few business leaders walk a straight path. Everyone zigs and zags on the path to success. Instead of giving in to the challenges, he became an expert in technology and business. His life experiences built his grit and shaped his determination. After working with my co-founder, Nitin Pachisia, and other immigrant entrepreneurs, I have gained tremendous empathy for the adversity muscle gained on their journeys – including those of my parents. I never fully appreciated the struggles they must have endured as they settled our family in the U. They come from 15 countries of birth, speak 30 unique languages and more than 25 percent of our teams have a female executive. All of them came to the U. The shared characteristic of all these entrepreneurs – and all successful people, for that matter – is that someone believed in them early in their lives. Unshackled aims to play the role of believer in their entrepreneurial lives. We know the power and energy of our founding teams is unmistakable. Holding onto the courage of their convictions when the odds are stacked against them has instilled a potential for greatness. We also boast one of the lowest failure rates. It is clear our thesis of supporting immigrant early-stage entrepreneurs is working. The determination and brilliance of immigrant businesspeople is what makes America one of the most competitive countries in the world. More than 40 percent of Fortune companies were founded by immigrants or children of immigrants. We have spoken on CNN and CNBC and we have authored a white paper calling for the specific policy changes needed to encourage the best foreign students and workers to settle and innovate here, not back in their home country – a proven job creation strategy. At Unshackled, our goal is to create , domestic jobs. Someday, we will hear an American from our heartlands go on TV thanking a foreign-born entrepreneur for putting food on the dinner table. Both employer and employee have the adversity muscle to succeed in the global economy.

*"The Power of Adversity is a courageous book in which legendary businessman and philanthropist Al Weatherhead describes how adversity properly understood can be a catalyst for powerful and meaningful personal transformation.*

Sometimes you must go through the valley to reach the top of the mountain. Figuratively, the valley is what we call the times of adversity. These are those times when you may have some questions for your Heavenly Father. The hard times are when you should draw nigh unto God; He wants to hear from you. Hebrews 9: In adversity I often call to mind a memory verse. One of my favorite memory verses in the valley is one that was written by the weeping prophet, Jeremiah: They are new every morning: Adversity as a Faith Builder My refuge and my fortress Psalms In all your ways acknowledge him, and he will make straight your paths. And let steadfastness have its full effect, that you may be perfect and complete, lacking in nothing. Though you have not seen him, you love him. Though you do not now see him, you believe in him and rejoice with joy that is inexpressible and filled with glory, obtaining the outcome of your faith, the salvation of your souls. Take my yoke upon you, and learn from me, for I am gentle and lowly in heart, and you will find rest for your souls. For my yoke is easy, and my burden is light. Not as the world gives do I give to you. Let not your hearts be troubled, neither let them be afraid. And the peace of God, which surpasses all understanding, will guard your hearts and your minds in Christ Jesus. And now my head shall be lifted up above my enemies all around me, and I will offer in his tent sacrifices with shouts of joy; I will sing and make melody to the LORD. For we were so utterly burdened beyond our strength that we despaired of life itself. Indeed, we felt that we had received the sentence of death. But that was to make us rely not on ourselves but on God who raises the dead. On him we have set our hope that he will deliver us again. You also must help us by prayer, so that many will give thanks on our behalf for the blessing granted us through the prayers of many. And most of the brothers, having become confident in the Lord by my imprisonment, are much more bold to speak the word without fear. Adversity is Temporary Romans 8: For the creation waits with eager longing for the revealing of the sons of God. For the creation was subjected to futility, not willingly, but because of him who subjected it, in hope that the creation itself will be set free from its bondage to corruption and obtain the freedom of the glory of the children of God. Though our outer self is wasting away, our inner self is being renewed day by day. For the things that are seen are transient, but the things that are unseen are eternal. He will dwell with them, and they will be his people, and God himself will be with them as their God. He will wipe away every tear from their eyes, and death shall be no more, neither shall there be mourning, nor crying, nor pain anymore, for the former things have passed away. Into some he comes at noon, in the sunshine of prosperity; to some in the dark and heavy clouds of adversity. Some he affects with the music of the church; some, with some particular collect or prayer; some, with some passage of a sermon, which takes no hold of him that stands next to him. *All of these collective, and on-going, experiences have caused him to conclude that adversity in any aspect of life is a gift that empowers us to achieve success. So strongly does he believe this that his book on the topic was recently published, The Power of Adversity.*

## Chapter 4 : Building Resilience – ZERO TO THREE

*By looking at this lesson, you can see the power of adversity in shaping you. Much of who you are today is because of how you have faced and dealt with adversity. Likewise, your company will be shaped now by how you face adversity as an organization.*

It is a movie about achieving your dreams even when nobody else believes you can “ or should “ achieve those dreams. Myopic and due to die at 30, he has no chance of a career in a society that now discriminates against your genes, instead of your gender, race or religion. To succeed in this world, Vincent goes underground, assuming the identity of genetically-enhanced Jerome who was crippled in an accident. With the once-in-a-lifetime launch only days away, Vincent must avoid arousing suspicion, while passing the tests, evading the police, and not knowing whom he can trust! Gattaca: Of all the scenes in the movie, this is the one that has played in my mind over and over. Vincent challenges his brother to a game of chicken where they swim out to sea until one brother gives up. Anton, the genetically stronger brother, was always the winner of this game when they were boys. How are you doing this, Vincent? How have you done any of this? We have to go back! This is how I did it, Anton. I never saved anything for the swim back. But watching the movie again with G1 made me realise something else. What if your child is Anton “ genetically stronger, but weaker in spirit and mind? He may not identify with Vincent but see himself in Anton. The power behind the message would then be missed. There was another scene that I had never really paid much attention to before but it stuck out this time. Even by genetic-modification standards, Jerome is considered to be among the best of the best “ he has a genetic makeup that is second to none. In the scene, Jerome pulls out a swimming medal and shows it to Vincent and they have the following exchange: Are you colour-blind, too, Vincent? Jerome Morrow was never meant to be one step down on the podium. With all I had going for me, I was still second best. So how do you expect to pull this off? It is disconcerting to see example after example of how ability and advantage makes us weak. We take for granted that things come easily. Vikings shares the story of Ragnar Lothbrok, a legendary Viking leader. When Ivar was an infant, Ragnar wanted to kill him, thinking his crippled legs would be a weakness. As a grown man, Ivar confronts his father about it. I bet you wished you had never brought me along, right? And I bet you wished you would have killed me when I was born just like you wanted to. Only when you talk. You are special, not in spite of your legs, but because of them. To do that, we need to give them adversity in a form that they cannot walk away from. They need to face it over and over again until they can learn the lessons from it. We need to live it, breathe it, and completely embody this rule. When I look back at my own music experience, I find myself agreeing. If they could get over that initial hurdle and get good enough, would they still want to quit?

### Chapter 5 : The Power of Adversity in Developing Grit » Figur8 - Nurture for the Future

*The Power Of Adversity. Every so often I read a quote that really makes me stop and think. I read once such quote in a book earlier this week. As I reflected on it, I.*

Eloisa Villaneuva Leave a comment I grew up in chaos. My mother contracted MS early on, then miraculously went into remission, leaving only numb fingers for some years. Later on, the nerve damage was more impactful, but most of the time growing up, her MS had only one major impact on the rest of us. You see, as she was lying on her bed, day after day, unable to move or see, she would contemplate many things; and the biggest thing was: As a result, when the miracle happened, she no longer considered things like housework and order to be all that important. Creativity, on the other hand, was vastly important, but only a certain kind of creativity – creativity that led to practical solutions, and that bettered our lot in what she considered a meaningful way every day. So, art was out, but sewing and designing clothing was in; ballet was out, but working in clay creating pots and dinner-wear was in; writing was out but cooking well definitely was in. This molded certain ways I operated into adulthood. For instance, I would witness friends and associates struggling with whether or not to do what their parents were against, and would get that, in this way, I was fortunate. I remember thinking more than once as an adult making my own way: We were a pretty independent bunch, and that gave me something very precious: I had that in spades, and all because of the adversity I met in childhood. What it does show is that adults who experienced childhood abuse or adversity have, compared to safely nurtured children, better skills that help them deal with potential threats. These people are better at detection, learning, and memory on tasks that protect them from these possible dangers. These children can never count on a stable environment and so they take what is offered in the moment rather than wait for what might never happen. Both strategies make sense, considering the two different environments. Another example is the ability to shift focus in unpredictable environments. Adults from adverse childhood backgrounds are, on the whole, better at shifting focus without loss of accuracy than their peers from stable childhood backgrounds. In other words, flexibility in times of instability is easier for the first set of adults, which is an asset in unsafe times. The big learning for me from this study is this: In Gestalt Therapy, this is called Creative Adjustment. Maryanne Nicholls is a Registered Psychotherapist. ### Chapter 6 : The Power Of Adversity: The Setbacks Of Life Are Only Setups For Extraordinary Comebacks

*Unshackled began to call this combination of tested grit, resiliency and determination, "adversity muscle." For many entrepreneurs, it is the competitive edge that sets their companies apart. For many entrepreneurs, it is the competitive edge that sets their companies apart.*

Todd Duffee, fresh off of a 7 second knockout of Canadian contender Tim Hague at UFC in Portland, Oregon, was the potential new face of a lethargic Heavyweight division crying out for new impetus. Though the newly crowned champion, Brock Lesnar, knew how to draw a crowd and command record-breaking PPV audiences, he was nowhere near the top of the Pound for Pound rankings. The casual fanbase were ready to embrace a new star. The UFC brass obliged and booked the Hoosier to return in December that year, but a back injury put paid to that and he was replaced for his scheduled bout with veteran Paul Buentello. Russow was also in the UFC, and in his career, with his only loss coming to k1 knockout artist Sergei Kharitonov at Pride Despite his opponents formidable record, Todd Duffee was a heavy favourite. What transpired will be remembered in the history of both men and the UFC as a whole, as Duffee, after absolutely dominating the fight until halfway through the third round was knocked out cold in one of the most stunning comeback wins the sport has ever seen. Though the reasons for the release are still not fully known to this day, that has not stopped plenty of people theorising from the information that has been leaked. Later that year however, Duffee found himself fighting in front of the biggest crowd of his life. His opponent was then-Strikeforce Heavyweight kingpin Alistair Overeem in the prime of his destructive reign, and the Dutchman put Duffee away in just 19 seconds with a brutal knee and a devastating combination of punches that knocked the young Heavyweight out cold for the second time in two fights. It was very depressing. I definitely developed a bad attitude during that time period. For about nine months, a year, I was hard to be around. He returned to action two months later, stopping Neil Grove in the first minute. Duffee admitted in his post fight interview that it had been a rough training camp, and was keen to fight again soon. With a 4 month gap until their next show, SFL granted Duffee the permission to fight elsewhere in the interim. Even the smaller promotions would literally write me off before they had a phone conversation with me. He would return in December against British fighter Phil De Fries, and on the undercard of the Velasquez vs Dos Santos rematch, stopped the Lincolnshire native in the first. However just as things were looking up again, Duffee was diagnosed with a mystery illness. In December of , Anthony Hamilton became his third consecutive first round knockout victim. The fight with Mir was made after Duffee asked for it back in March. The veteran will enter the fight on a high after his upset knockout of Antonio Silva, and with far more experience, will be fancied by many to be too much for his younger opponent. Duffee however, has faced as much adversity as almost any fighter on the roster, and will be far from easy pickings for any of his top 10 ranked rivals. Images courtesy of graciemag.
