The trip trapping of the three billy goats over the bridge to eat fresh lavish and green grass other side of the river. Can you hear the noise as they cross the bridge? The goats lived in a bleak field that extended alongside a riverbank. Hardly any grass grew there, but on the reverse side of the river the land was lavish and green. He decided to trot over the bridge and eat the grass on the other side. Up ahead he could see a lush field full of good things to eat. Well before he got to the other side, a loud roar came from beneath the bridge. The little billy goat Gruff stopped. The billy goats Gruff did not realize that it was an enchanted bridge. A brutal troll resided underneath it, eating up anyone who attempted to cross over to the other side. When he peered over the side, he could see the troll resting below with a fishing rod. The troll looked irritated and mean. He had a big red nose, wonky teeth and a shaggy black beard that was matted with knots. The smallest billy goat Gruff gulped, and then made a dash for the other side. The troll was on the bridge instantly. Just wait for my big brother. Finally he let the smallest billy goat Gruff go on his way. The middle billy goat Gruff noticed his small brother grazing in the lavish meadow on the other side of the bridge. The grass appeared green and appealing. He chose to cross the bridge, as well. The middle billy goat Gruff went trip-trap, trip-trap, trip-trap over the bridge. His belly rumbled when he smelled the fresh field in front. Beneath bridge, the troll heard every step. His eyes gleamed with pleasure. The troll jumped on to the bridge. The troll blocked the bridge. He pointed a rotten finger nail at the goat, his eyes filled with menace. The middle billy goat Gruff was equally as clever as his brother. Just watch for my big brother. The middle billy goat Gruff continued his way. The biggest billy goat Gruff craned his neck to check out how his brothers were faring. The goats were ambling lazily across the field on the reverse side of the river, eating their fill of green grass. The troll got excited when he saw the biggest billy goat Gruff crossing the bridge. The biggest billy goat Gruff went trip-trap, trip-trap, trip-trap over the bridge. He could not wait to have his very first mouthful of refreshing grass! The troll dropped his cutting knife and fork as the goat lowered his head and energized towards him. The biggest billy goat Gruff grabbed the troll with his horns and thrown him into the river. The three brothers witnessed the troll land with an massive splash, vanishing without a trace. The trip trapping of the three billy goats over the bridge.

The Three Billy Goats Gruff Norway Once upon a time there were three billy goats, who were to go up to the hillside to make themselves fat, and the name of all three was "Gruff. So first of all came the youngest Billy Goat Gruff to cross the bridge. A little while after came the second Billy Goat Gruff to cross the bridge. Trip, trap, trip, trap, trip, trap, went the bridge. Wait a little till the big Billy Goat Gruff comes. Be off with you," said the troll. But just then up came the big Billy Goat Gruff. Trip, trap, trip, trap, trip, trap! The big Billy Goat Gruff ," said the billy goat, who had an ugly hoarse voice of his own. That was what the big billy goat said. And then he flew at the troll, and poked his eyes out with his horns, and crushed him to bits, body and bones, and tossed him out into the cascade, and after that he went up to the hillside. There the billy goats got so fat they were scarcely able to walk home again. George Routledge and Sons, n. Translation revised by D. The first had one little belly, the second had two little bellies, and the third had three little bellies. The one with one little belly was soon full and was the first to go home. But a wolf laid himself across the narrow mountain path and said, "Run! I am very skinny, but a goat will soon come who has two little bellies. He will fill you up. Then came the second goat, the one with two little bellies, and who was now full. The wolf said to him as well, "Run! I am only half meat, but a goat will soon come who has three little bellies, and who will fill you up completely. Then came the third goat, the one with three little bellies. He had finally gotten full. The wolf said to him, "Run! And there the poor rascal lay. He wanted the biggest and fattest mouthfull, but instead got nothing -- but pain. This fable is from Lusatia German Lausitz, which historically was centred on the Neisse and upper Spree rivers, and contained a mixed Slavic and German population. The eastern part of Lusatia now belongs to Poland, the western part to Germany. How the Goats Came to Hessen Germany In olden, olden times, the land of Hessen was surrounded by great forests which were inhabited by many wolves. Many a family of goats attempted to enter the land, but were torn apart by the bloodthirsty beasts. One day a weak little kid goat was making his way toward Hessen. He had hardly entered the forest before a wolf confronted him and wanted to tear him to pieces. Filled with fear, the little kid said, "My mother is coming too. The mother will be a better meal for my hungry stomach. Sure enough, soon afterward the mother goat appeared. The wolf was about to pounce on her, when she -- filled with fear -- said, "My husband is coming too. Wait to eat until he comes. He was about to spring on him and grab him by the throat when two things caught his attention: The wolf thought that he was loading his pistol, and he took to flight. Thus the first family of goats arrived happily in the land of Hessen. Their descendents have multiplied so much that Hessen now provides the neighboring lands with its surplus every year. But a greedy old troll stands in their way and threatens to devour anything that sets foot on its path. So how can the goats safely cross the bridge? They must get clever, of course! The Three Witty Goats Gruff preserves the fun and charm of the beloved original, Three Billy Goats Gruff, while adding a new spin to this cautionary tale. With plenty of repetition and exciting dialogue, young readers are sure to join in on the adventure. Perfect for shared reading at home or in the classroom. Prior to television and radio, oral storytelling was the most effective way to entertain people. Three Billy Goats Gruff is a tale about three famished billy goats male goats who desperately want to get to a fresh field of grass that grows on the other side of a bridge. In most incarnations of the story, the three goats are brothers – youngest to eldest. In others, they are youngster, father and grandfather Gruff is used as their family name. As the story goes, under the bridge lives a greedy troll that threatens to eat anything that dares cross it. The eldest goat eventually knocks the wicked troll off the bridge with his mighty horns. The troll gets carried away by the stream and alas, the goats live happily ever after. Since its initial publication, there have been many different versions of this folk tale. When people retell a story, they sometimes make changes to bring it up to date or make it their own. In my adaptation I incorporated a female goat nanny. Although female goats have been used in previous editions of this tale, they have seldom, if ever, been featured as the heroine in the story. As well, I proposed an alternative way for the goats to solve their dilemma – instead of using force to subdue their bully, they use their wit to outmaneuver the greedy old troll. From an educational perspective, my book strives to enrich young readers in the area of literacy vocabulary-building and mathematics concepts of patterning, number sense and measurement , as well as encourages discussions about various themes, including overcoming obstacles, problem-solving, teamwork, unity, courage, greed and bullying. Chapter 4 : The Three Billy Goats Gruff: Story & audio: The Fable Cottage

The Three Billy Goats Gruff A Norwegian story Once upon a time there were three Billy Goats Gruff; Little Billy Goat, Middle Sized Billy Goat and Great Big Billy Goat, who lived in a field in a green valley.

However, to get to the meadow, the 3 would have to cross over a bridge where a mean and ugly troll lurked beneath. Nonetheless, they all decide the venture would be worthwhile. The smallest of the 3 goats attempts to cross first. He encounters the troll, but convinces Summary: He encounters the troll, but convinces the troll to spare him on account that the next goat coming is bigger than he, and will therefore be more worthwhile to gobble up. The 2nd goat uses the same tactics as the first, and is also allowed to pass. It alas comes time for the 3rd and biggest Gruff to cross the bridge. The final Gruff then uses his 2 big horns to butt the troll into the river below, and in doing so, he was alas free to join his brothers, who had already indulged in the plentiful amount of grass the meadow had to offer. Overall, I enjoyed the traditional fantasy tale; however, I found the plot to be very repetitive and predictable. I also did not find the 4 characters in the story, the 3 billy goats or the mean, ugly troll, to be very inviting characters. I also did not enjoy that the 2 billy goats that crossed the bridge first, and who had both turned on their brother s who had yet to cross, got away with their convincing tales they told the troll without any reconciliation for their not-the-most-friendly tactics used to get across the bridge. Though I found the story to be very original and possess its own quality, it was the lack of demonstration of good morals and character traits that made me a little displeased with the plot as a whole. Furthermore, I found myself relating to the oldest and biggest Gruff, because he was disadvantaged, and had it not been for his bravery against the troll, he would have been gobbled up, while his selfish younger brothers were ravishing in the grassy meadow without a care in the world. Being the oldest child in my family, I found myself sometimes feeling disadvantaged growing up, because of my placement in the child line-up. Being the oldest, I was usually taken care of last, since I was assumed to be the most mature and most able to be patient, and I also found myself assuming more responsibilities than my younger siblings. In a similar manner, the oldest Gruff had to exhibit the most patience in crossing the bridge last and almost had to make the ultimate sacrifice because of what his younger brothers had told to the troll. Furthermore, though I was able to relate to the oldest Gruff, I overall found myself disliking too many elements of this book to give it any more than 3 stars. Students could work together in small groups to create a modern version of the story. Students would have to adapt the tale to 21st century times while staying true to the concept of the original story. By adapting this story to the modern day, students would be able to connect the story more to their personal lives and current trends that perhaps are more relatable than 3 goats and a troll. Students would also get practice in speaking and presentation skills, and incorporating the various necessary elements of a story, including characters, setting, plot, and problem and solution. I think this activity would be a good way to introduce the topic of bullying and after the plays are presented by each of the student groups a whole class discussion could take place regarding bullying in the classroom, in the school, and in the community and how bullying is not acceptable. The average interest level of the other versions was geared towards kindergarten, and the average lexile range was around With this in mind, I presume my version of the story would be suitable for kindergarteners and 1st graders. I would say this book would be a good read aloud option because of its minimal wording and corresponding pictures, and this book should be able to be read independently by those beginning reading in the 1st grade. This book offers much repetition of text, and would therefore support those students just beginning to read on their own.

Plot[edit] The story introduces three male goats , sometimes identified as a youngster, father and grandfather, but more often described as brothers. In other adaptations, there is a baby or child goat, mama goat and papa goat. To do so, however, they must first cross a bridge , under which lives a fearsome and hideous troll , who is so territorial that he eats anyone who tries to cross the bridge. The smallest billy goat is the first to cross and is stopped abruptly by the troll who threatens to "gobble him up! The greedy troll agrees and lets the smallest goat cross. The medium-sized goat passes next. He is more cautious than his brother, but is also stopped by the troll and given the same threat. The second billy goat is allowed to cross as well after he tells the troll to wait for the biggest billy goat because he is the largest of the three. The third billy goat then gets on the bridge and is stopped by the hungry troll who threatens to devour him. However, the third billy goat challenges the troll and knocks him off the bridge with his horns. The troll falls into the stream and is carried away by the current. Adaptations and cultural references[edit] Audiobooks[edit] Scholastic Corporation produced an audio recording in , with music composed and directed by Arthur Rubinstein , narrated by Bob Thomas , and cover illustration by Susan Blair and Ellen Appleby. TaleThings offers a storybook program "app" for iOS and Android mobile devices that is a humorous retelling of the classic tale. It features animated visuals and narration in any of six languages. Films[edit] In the Norwegian film Trollhunter , the titular character attempts to bait a troll by placing three goats on a bridge. A troll is guarding a bridge Graham needs to cross. The optimum solution to the puzzle is to lure a goat over to the bridge. Upon seeing the troll, the goat is angered, and butts it into the river below. The tale also comes into play during Magicland Dizzy A troll is guarding a bridge Dizzy needs to cross. He says the only way to cross is to give him 30 diamonds before kicking Dizzy in the air away from him, but this is a red herring, as there are 30 in the whole game with one behind him and many in the Ice Palace afterwards. The only solution to the puzzle, is to cut the rope holding the goat using the dagger, before hitting him with the stick to make him charge towards the troll. Along his way, the goat butts the troll into the air. The tale is also included in the video game Simon the Sorcerer In the video game The Elder Scrolls V: Skyrim , near a place called Purewater Run, there is a stone bridge near a waterfall. Golden Books did a version of the story that was similar to the book. The only difference is that when the troll is washed away by the stream, he is later mentioned to have moved into a cave. The goats in this adaptation are represented by the protagonist as a child, a teenager and finally a middle-aged man. The story was nominated for a World Fantasy Award. This variant features a kid, its mother, and her husband. When the mother goat tells the troll to eat her husband instead of her, "the troll lost his appetite. The tale is the inspiration of Kevin P. Chapter 6 : Billy Goats | Disney Video

There were once three Billy Goats who lived in a meadow at the foot of a mountain, and their last name was Gruff. There was the Big Billy Goat Gruff, and the Middle-sized Billy Goat Gruff, and the Little Billy Goat Gruff.

This story is available in English , Spanish , French , German and Italian Once upon a time there were three billy goats. They lived in the mountains in a little goat-village called Goatstown. The three goats were brothers, but they were very different. The youngest brother was the smallest, the middle one was the fattest, and the oldest one was the strongest. Sometimes they eat chocolate cake for dessert, but usually they just eat more grass. During the summer, there was lots of tall, green grass in Goatstown. But in the winter, the mountains were covered in deep snow, and there was no grass anywhere. So the three goats decided to go down from the mountain and find the tall, green grass in the meadow on the other side of town. On the other side of the bridge was the tallest, greenest grass that the goats had ever seen. They stomped their feet and wiggled their tails. But the bridge was very long and very narrow. Only one goat could cross at a time. I will see if the bridge is safe! My name is Steve. I enjoy knitting and playing cards. My favorite colour is red, and my favorite foods are grass and chocolate cake. I am small and bony, and I taste like cabbage. But my brother is bigger and tastier than me. He is right behind me! His brothers saw him frolicking in the grass. If I can cross that bridge, then it is safe for you! The middle goat started walking. My name is Roger. I like to play the piano and sing opera. My favorite colour is yellow, and my favorite foods are grass and chocolate cake. If you eat me, I will taste like a fart. But my brother is much tastier. The big goat saw Steve and Roger playing in the grass. He did a little goat dance and made a funny goat sound. My name is Tony. I like to bake cookies and walk on the beach. My favorite colour is blue, and my favorite foods are grass and chocolate cake. He had hands as big as dinner plates. His feet were as long as loaves of bread. And the hair on his back was as thick as grass. The troll stretched and shook his hairy body, and growled: He stomped his feet. He lowered his horns. He hit the troll in the backside and knocked him off the bridge. Tony ran across the bridge safely, and joined his brothers. The three goats ate a big lunch of tall, green grass. They talked and laughed and played goat football in the meadowâ€™far from the cold winter snow. He was washed down the river and into the sea. He was never seen again.
