

Chapter 1 : New G.I. Joe book offers the ultimate salute to collecting - Collectionlink

The Ultimate Guide to G.I. Joe, 3rd edition documents with pictures, words, details inside intel and secondary market values for every G.I. Joe character, vehicle, playset, accessory and weapon system - as well as easily lost pieces for each - in this vintage run.

Buy this Book at Amazon. My site has been getting a ton of traffic post-movie, and a lot of these folks might not know the history of G. Joe 2nd Edition would be a fantastic jumping off point to get instantly familiar with the great history of A Real American Hero and their roots. But once you scratch that surface and start digging down, there is really a lot of information in here and this book is an invaluable resource for folks who are just getting into the G. Joe brand, or even for fans like me who have been following the property for nearly three decades. Now, this book has a lot of the same philosophies as many others out there. But what Mark Bellomo has done is take that reference guide idea and injected it with mega-steroids, bulking it up, inflating it with insane amounts of detail, yet still making it a book you can carry around and utilize as necessary. The Ultimate Guide to G. Joe 2nd Edition is the ultimate coffee table book for any Joe fan. It is chock full of pictures of your favorite toys from cover to cover, yet is bundled and produced professionally enough to blend with the rest of your books and not make you look too nerdy. Without hesitation, I say YES. Details about characters, about figures, and even about the military history surrounding all of the different aspects of the G. Joe brand make this book infinitely interesting for Joe fans of all makes, models, ages, or opinions. It is, far and away, the defacto book for the discriminating G. Joe fan, no matter which flavor. This book is professionally conceived, produced with care, and is an absolute necessity for any G. An amazing amount of blood, sweat, and tears went into this book, and it shows. Buy it, you will NOT regret it. Photographs from The Ultimate Guide to G. I Joe, 2nd Ed.

The first book is awesome. I hope this one comes out with ever better pictures. At least that is what I think it will be. If it does, I may buy it. He had copies of his new Joe and Transformer books with him. He said that all of the images had been re-shot and now included isometric views. I was able to spend a few minutes looking through it and it looked amazing only looked at the Joe book. He was great to talk to and he signed my v1 book. Thanks for the scoop on the release date change. Shin Densetsu says Quote: He has a new TF one too? I have both the joe and TF 1st editions, very cool reference! Outbackk says I love this book. I wonder how many total pages? NightForceHorde says , There are a few Typos in it and 1 picture duplicate. I wonder if he goes into some of the later figures as far as mail order figures, and early convention, and door prize or give away figures that where sealed in a bag with no accessories.
