

A World Cup winner in , , and , Edson Arantes do Nascimento, to give him his full name, is generally regarded as the greatest soccer player of all time. Pele won multiple titles with Santos, with whom he played out the best years of his career, before joining the New York Cosmos for a brief spell.

Ty Duffy June 2, 1: Here is our list of the Top 10 soccer players in the world, entering those two tournaments. The greatest emphasis was placed on recent club form. That excluded the flying Dutchman Arjen Robben and weighed against Eden Hazard, who might be here were the list just to consider talent. He scored 39 goals in 40 starts for Bayern Munich in this season, including a barrage of five in nine minutes against Wolfsburg. Their talents often overlap rather than compliment. Bale is lightning fast down the wing. Manuel Neuer Neuer is a true testament to German engineering. He has expanded and redefined the position at least for him often serving as an auxiliary sweeper defender and a distributor. He has no qualms about physical contact. Neuer could probably play as a professional in the outfield. His one flaw is an insatiable desire to do that. His combination of vision and technique, at that specific skill, is perhaps unparalleled. He just turned 24 in February. Stupid Olympics on home soil. That still leaves him a step or two ahead of just about everyone else. His great flaw has been playing at the same time, in the same league as Lionel Messi. He will only mature and improve. He has some Zidane-like grace and instincts on the ball. Expect him to smash the world-record transfer fee when Juventus decides to sell. He struggled with injuries. Some have been more fun to watch. Many have had more personality. He is the GOAT. He attended the University of Michigan. He likes his meals prodigious and his whiskey neat. He is based in Detroit.

Chapter 2 : The 20 Greatest Soccer Players of All Time :: Soccer :: Lists :: Paste

The best current soccer players in the world are leading charge as some of the most iconic stars in the history of the game. These talented soccer athletes are leading their respective teams to championships with some of the biggest football clubs in the world, winning numerous awards and.

We love the sport because of the grit, intensity, teamwork, force, and speed of the game. To win as a team, each individual player must know his assignment, execute, and sacrifice himself at the point of attack. Football is a chess match. Players must shift positions, read, react, and dominate smaller battles to help the larger group prevail. To the uninitiated, the game of football may simply showcase two walls of humanity crashing into each other. Beyond the color-coded play sheets and complex zone-blocking schemes, the ultimate goal remains to advance the ball to the other side of the field for points. They can concert casual spectators into game-day fanatics. Indeed, no defense exists for the perfect pass, speed does kill, and defense can be your best offense. On the gridiron, the greats demand an eyewitness account at all times. We struggled to describe this supreme ability in words as they redefine what is possible. Against the running game, White possessed both the strength to shed blockers and the speed to chase down ball carriers. Before retirement, White racked up a then-NFL record sacks. Tom Brady, quarterback Who won his fifth Super Bowl ring? Getty Images At quarterback, Tom Brady has emerged as one of the greatest rags-to-riches stories of all time. He entered the NFL as a doughy sixth-round pick out of Michigan. By 37, Brady has already taken home five Lombardi trophies and four Super Bowl MVP awards, granting him the bragging rights as one of the greatest football players of all time. Statistically, Brady is equally impressive as any quarterback to ever play professional football. Brady closed out that undefeated regular season having thrown for 4, yards and a then-record 50 touchdowns after completing At wide receiver for the Green Bay Packers, Hutson helped introduce the game of football to slant, rub, deep out, and crossing routes, which first unlocked the timing complexities of the forward pass. In , Hutson caught a league-leading 74 balls for 1, receiving yards and 17 touchdowns. At 6-foot-3 and pounds, he led the Monsters of the Midway and their black-and-blue style of punishment. Chicago Bears lore remains steeped in the tradition of defense thanks to him. In the box, Butkus ran downhill to pull guards at the line of scrimmage and fold pesky running backs into the turf. In space, Butkus patrolled the middle of the field and laid down the law on any wayward receiver. He could make tackles, strip the ball carrier, corral interceptions, and wreak havoc. Johnny Unitas, quarterback Johnny Unitas M. At quarterback, Johnny U was credited for authoring the two-minute drill and fourth-quarter comeback. Unitas, of course, will forever be immortalized as a Baltimore Colt. At 5-foot and pounds, Payton was neither a physically imposing, bruising back, nor was he blessed with track star speed. On the playing field, the man they called Sweetness was known for his iron will to finish off runs in the image of his lunch-pail work ethic and madman fitness program. As a true workhorse back, Payton led the NFL in carries for four consecutive seasons between and In , Payton carried the football times to run roughshod over the competition for 1, yards and a 5. Vintage Payton would take the inside handoff and juke a flailing defensive lineman with a quick spin move before slamming his knee into the chest of a stunned linebacker in the hole. After breaking that tackle, Payton kept diminutive defensive backs at bay with a stiff arm before he bounced the play to the outside and headed off to the races. Taylor was too fast for plodding tackles and too powerful for blocking backs to contain coming off the edge at the line of scrimmage. Within two counts, the quarterback would get decked and stripped of the football in one fell swoop. As a sack artist, Taylor compiled In coverage, Taylor could also drop back to man up against running backs into the flat. Through pure intensity, L. These offensive packages largely trace their roots back to Joe Gibbs and his gimmick formations, designed to contain No. Montana was not your classic Golden Boy quarterback. Montana, because of his ability to deliver the football with precision and touch, was a perfect fit for the precise timing of the West Coast offense. In the prolific West Coast offense, Montana could dump off short passes to the likes of Jerry Rice, John Taylor, Roger Craig, and Tom Rathman, and let his receivers go to work with runs after the catch. Although Montana and his 49ers are historically regarded as a finesse bunch, this group showed its moxie in countless comeback victories and

cold-weather playoff bloodbaths. Montana has more than earned the title of one of the best football players in NFL history. Over the course of his nine seasons, Brown ran over, through, and around people for 12, rushing yards and touchdowns on the ground. Brown simply had nothing else left to prove, having already qualified as the record holder of every significant rushing mark in the books. Although Brown has since been surpassed by Emmitt Smith and Walter Payton in the record books, neither back can touch his remarkable 5. With the exception of , Brown led the NFL in rushing every year between and Rice, the San Francisco Treat, may even hail as the greatest blocking wide receiver of all time. And as an NFL bootstrapper, he serves as another monument to hard work. In all, Rice rewrote the NFL record books for 1, receptions, 22, receiving yards, and total touchdowns. Rice earned his position. Before he had even stepped onto the field, Rice and his will to work had already destroyed many an opponent.

Chapter 3 : The NFL's 10 Greatest Players of All Time

Every fan has an opinion about the world's best soccer players, but nearly everyone agrees on a few players. Many of these stars play for the elite soccer teams – Real Madrid, Barcelona, and Manchester figure prominently in this list – and a few of them are already considered legends, like Lionel Messi or Cristiano Ronaldo.

Top 10 By Emily Bella Top 10 Best Football Player In The World Football is most favorite game in the world which has millions of fans in every part of the world, every person has his own view to judge the best player and here we make a list of top 10 best players in world. Football is a game which receives most number of fans every year than any other and this is the reason that this game is considered as most famous in world. The game is a mixture of skills, emotions and feelings that every player has for his own countries or people and which make them stronger in the field. He is well known for his unique style and his speed in order to capture his opponents while this is the reason that he is known as sweeper-keeper. His skills like quick reflexes, excellent shot-stopping abilities, strength, long throwing range and many others make it one of the best footballers in world. He helped his club to win two successive Campeonato Paulista championships, a Copa do Brasil, and the Copa Libertadores while he made his football debut at age He is a great finisher who has ability in both feet and he is ranked as most prominent sportsman in world. He was named in as captain of Brazilian soccer team and in his career he has received several awards. Luis Suarez The Uruguayan professional footballer, Luis Suarez has special skills which make him one of the most famous players in world, he plays for Spanish club FC Barcelona and the Uruguay national team as a striker. Cristiano Ronaldo Portuguese professional footballer, Cristiano Ronaldo plays for the Spanish club Real Madrid and the Portugal national team as a forward and he is known as one of the greatest footballers of all time. He plays for the Spanish club FC Barcelona and the Argentina national team as

a forward while his whole professional career revolves around Barcelona where he won 29 trophies. His skills and pace is unmatched in field with which he defeats all of his opponents and his team number is

Chapter 4 : Best Soccer Players of All Time | List Greatest Footballers Ever

To soccer's elite scouts, though, it is almost an afterthought. They will all watch it, of course, though with a personal as much as a professional eye.

Who is the greatest player of all time? How do you compare someone from the era of the pigskin ball, half-time oranges and legal backpass with the highly-trained, physically advanced multi-millionaires of today? Eusebio One of the first African-born players to make an impression on the international game, Eusebio steered Portugal to a third-place finish at the World Cup with a Golden Boot-winning nine goals. Quite simply he was one of the most naturally gifted players the game has ever seen. Of course, Moore first shone on the international stage at the World Cup. There, his defensive skills were so masterful that he even managed to overshadow hattrick hero Geoff Hurst in the controversial final – the image of him being raised aloft with the trophy in hand remains one of the most iconic in English soccer history. But there was so much more to the Dutchman than impossibly tight-angled volleys. Equipped with a ballerina-esque agility, two-footed close control and an intelligent reading of the game, he was arguably the most graceful striker of his generation. Lev Yashin Nicknamed the Black Spider for his choice of dark head-to-toe attire, Lev Yashin not only revolutionised goalkeeping fashion, he also changed the role of the No. Whereas keepers had previously been restricted to silently standing on the goalline, Yashin pioneered the practice of barking at defenders and rushing out of the six-yard box to intercept crosses and thwart oncoming attackers. It was an approach which made him a star of the first ever televised World Cup in and helped the Soviet Union pick up a gold medal at the Olympics and the inaugural European Championships in Just ask the Iceland team he belittled after they had the gall to hold his team to a draw. Or the reporter whose microphone he tossed into a lake during an innocuous interview. Or the Portugal manager he tried to make redundant after hobbling off in the final. And all of this was at just one tournament. The perpetually cheerful Brazilian used this relentless energy, as well as his strong passing accuracy, tactical nous and leadership skills, to guide his homeland to three consecutive World Cup finals. Zico Forget a certain Mr. Beckham, no other player has ever been able to bend it like Zico. The Brazilian free-kick specialist was able to curve the ball round or over the defensive wall in a banana-like manner which defied the laws of gravity. Sadly, despite competing in three World Cups – including the Brazil side widely regarded as the greatest ever – Zico never lifted a major trophy at international level. However, he did pick up a bunch of silverware during his year spell with club side Flamengo, including three league titles and the Copa Libertadores. He also did so when it mattered. He scored ten goals at the World Cup to win the Golden Boot, added another four at the tournament including the winner in the final, and also finished top scorer at the Euros that his homeland won convincingly. But the right winger dubbed the Bent Legged Angel he was born with a deformed spine and curved legs was responsible for some of the most joyous moments in Brazilian soccer history. And after Pele got injured during their defence of the trophy, it was Garrincha who almost single-handedly steered the team to a second successive victory. The playmaker entered the pantheon of greats with one of the most dominant displays in international tournament history, scoring nine goals including two hattricks to guide France to their first ever major trophy, the European Championships. His prowess in front of goal, intelligent passing technique and dead-ball skills were all routinely showcased at club level, too. Even Zinedine Zidane admits that Platini was the man he chose to emulate in the playground. Paolo Maldini They say that loyalty is an alien concept in the modern game. But tell that to Paolo Maldini, who spent 25 years at the heart of the A. Milan defence, winning just as many trophies in over appearances. Zinedine Zidane Few other playmakers have risen to the occasion as often as Zinedine Zidane. Of course, the former Bordeaux, Juventus and Real Madrid midfielder was just as renowned for his temperament as his exquisite ball control, agility and exceptional vision. Who can forget the iconic image of him walking past the Jules Rimet trophy having been sent off for headbutting Marco Materazzi in the World Cup final? Although he initially began his career as a midfielder, he earned his high-ranking status when he moved to the back four and invented the role of the attacking sweeper. Renowned for his high quality passing and unmatched ability to read a game, the two-time European Footballer of the Year also went onto

influence the game as a coach, lifting the World Cup again with West Germany in 1954. From a nation with such a rich soccer history, Beckenbauer still remains its finest exponent. But despite such a lengthy absence from the game, not to mention his ballooning weight and advancing years, the 35-year-old was handed a lifeline by Real Madrid in 1962. The fact he could only use his left foot, and famously enjoyed the odd drink or ten, makes his prolific strike rate all the more remarkable. Nicknamed the Blond Arrow due to his quickfire pace and golden locks, the Argentinian showcased his creative genius all over the pitch, but made his name as a prolific forward. Despite winning caps for three different countries his native Argentina, his adopted Spain and an unrecognised-by-FIFA spell with Colombia, a run of bad luck cost him the chance to display his versatility on the World Cup stage. But he remains one of the most gifted all-rounders ever to step foot on a pitch. Indeed, before Cruyff came along, no Dutch club had ever won a European competition. By the time he left Ajax in 1973 they had won three in a row. Teammate Luis Figo even compared watching him play to having an orgasm. The Argentinian forward has earned such respect thanks to a breathtaking technical ability and a record-breaking list of achievements unlikely to be surpassed by anyone in the near future. And having previously been accused of bottling it on the international stage, Messi then silenced his few remaining critics when he picked up the Golden Ball at the World Cup. Failed drug tests at Barcelona and the World Cup – the latter heavily foreshadowed by his famously wild-eyed celebration after scoring against Greece – ensured that there would always be a black mark against his name. But when the diminutive Argentinian was at his peak, he was literally untouchable. By the end of his career, the Santos forward had netted an unfathomable goals, making him the most prolific goalscorer in soccer history.

Chapter 5 : Best Soccer Players in the World Right Now

FIFA, the world governing body in soccer, has announced a shortlist of 10 candidates for The Best FIFA Men's Player for just weeks after the conclusion of the FIFA World Cup. The winner.

While they are the two greatest at present, there are many more lurking in the shadows to follow in their paths. Robert Lewandowski Borussia Dortmund The Polish striker is one of the hottest properties in world football at the moment. His four goals against Real Madrid in the Champions League semi final first leg earned Borussia Dortmund a date with domestic rivals Bayern Munich at Wembley on the 20th of May to decide who will become the champions of Europe this season. One thing remains certain, whichever club are successful in signing the Polish striker they will be adding one of the best strikers in the world today to their team. Now, the Welsh winger is considered the best player in the Premier League. With constant speculation surrounding his future, it may not be long before we see Bale lining up for Barcelona or Real Madrid. There has been speculation linking the Welshman to both Spanish clubs in the past, particularly since he was named the PFA Player of the Year in . Following the departures of Luka Modric to Real Madrid and Rafael van der Vaart to Hamburg, many people questioned whether Tottenham still had the credentials to challenge for a Champions League spot this season. With that Bale has really stepped up his game and has had his best campaign yet. With his side two points behind rivals Arsenal in the battle for fourth place, we could yet see Bale give more full backs nightmares when the Champions League commences in September, as Maicon and Inter Milan will remember. Zlatan Ibrahimovic Paris St. He looks set to win Ligue 1 with current club Paris St. Germain this season and is the top scorer in the league with 27 goals. Milan and La Liga once with Barcelona. Ibrahimovic boasts a fantastic strike rate, scoring on a ratio of one every two games as well as being somewhat of a creative genius, providing more than assists throughout his career thus far. While he is often criticised for his work rate during matches, he regularly pulls off a moment of brilliance even on a bad day. When Ibrahimovic joined PSG last summer he became the most expensive player in combined transfer fees of all time. Franck Ribery Bayern Munich Possibly the best French player of his generation, Franck Ribery has been instrumental in helping Bayern Munich surge to the Bundesliga title and also the final of the Champions League at Wembley later this month. Known for his pace, energy, skill and accurate passing, the French winger has no doubt been one of the best players in the world over the last few years. The likes of Andres Iniesta and Xavi could only watch as the Frenchman broke away at speed to create endless opportunities for his teammates which ultimately helped the German side earn a place in the final against domestic rivals Borussia Dortmund. Having been listed for the FIFA XI team of , Falcao has continued his great goal-scoring form this season with 32 goals from 36 appearances in all competitions. His goal to games ratio is outstanding particularly since his days with Porto as he won the Europa League with Portuguese side and was the top scorer with 17 goals in 14 games during that campaign. No less impressive was his triumph in the same competition with current club, Atletico Madrid. Winning the Europa League following a over domestic rivals, Athletic Bilbao, Falcao was once again top scorer with 12 goals which earned him his nickname. Falcao has been often speculated with a move to Chelsea who are still desperate for a prolific striker. The Colombian would certainly add more goals to the London club and is capable of great things, as he showed against The Blues in the Super Cup last year, scoring a hat-trick in a win. Xavi is regarded as one of the best midfielders of his generation and maybe even of all time. Xavi is the orchestrator and makes the space which gives Lionel Messi the freedom to score goals at will. He has been selected in the UEFA team of the year five times in a row and has been as influential as always with Barcelona looking set to regain the La Liga title. Xavi was at the peak of his powers when Pep Guardiola was managing the club and used the Spanish midfielder as a playmaker who created opportunities repeatedly for his team. Xavi also has caps for Spain and remains an integral part of the international team even at the age of . It will be a long time before we see another player like Xavi with that kind of vision, stamina and ability to create chances. None were more dramatic than his hat-trick against Aston Villa as United won the league for a 20th time and with it, Van Persie won the first Premier League title of his career. Following a controversial move from North London to Manchester in August last year, the striker scored his

first goal at Old Trafford in win over Fulham. Struggling with injuries prior to last season, Van Persie has finally realised his full potential and has become in my view the best natural striker in the world. His partnership with Xavi in the middle of midfield for club and country has proved formidable and pivotal to the recent success of both Barcelona and Spain. Iniesta will no doubt be a key figure for his country at the World Cup in Brazil next year. Averaging more than a goal a game with strikes in matches. Lionel Messi Barcelona Hardly surprising who is number one when you think of all he has achieved in a relatively short career so far. Messi is consistently rated as the best player in the world at present and one of the greatest of all time. There are many reasons why, when Messi plays well Barcelona plays well which often leads to the Catalan club being labelled as a one man team. The Argentine forward also holds the record for most goals scored in a calendar year with an incredible 91 in all competitions for club and country in He also became the first player ever to score against every team in La Liga when he netted against Celta Vigo in March earlier this year. A niggling hamstring injury has kept Messi from reaching the kind of heights of last season, yet he still has 58 goals in all competitions. He was an innocent bystander as Bayern Munich emphatically knocked Barcelona out of the Champions League semi final with a aggregate win. Messi however remains the best player in the world and I think it will be a long time before anyone dethrones the Argentine superstar. Who do you think are the best ten players in the world today? Have your say below. The views and opinions expressed are solely that of the author credited at the top of this article. Get started today by signing-up and submitting an article [HERE](#):

Chapter 6 : FIFA World Player of the Year - Wikipedia

*The World's Greatest Soccer Players (The World's Greatest Sports Stars) (The World's Greatest Sports Stars (Sports Illustrated for Kids)) [Matt Doeden] on calendrierdelascience.com *FREE* shipping on qualifying offers.*

An strong international panel of experts were asked by Guardian Sport to name their top 30 players in action today and rank them in order of preference. Players were then scored on their ranking by each panellist: So how did the Guardian top come about? Sports editor Ian Prior explains: Compiling such a list requires a certain confidence, some may say arrogance of judgment. Not all may agree, but it is a personal belief that these pages are currently home to perhaps the finest collective of football writers and analysts in the English language. There was only one name and one position on which all 11 members of the panel were in unanimous agreement; the world No1, Lionel Messi. How could we not choose him? The debate has moved to another plane: Despite only a few English players making it onto the top , the Premier League is the best represented with 27 players, followed by La Liga with The chart above shows the top five leagues by the number of footballers appearing in the list. Barcelona is the best represented club with 12 players on the list followed by Bayern Munich and Real Madrid with 10 each. Chelsea and Manchester City each have eight players on the list. The average age for the footballers appearing on the list is 26 years old. Stephan El Shaarawy, aged 20, is the youngest player in the top whilst Javier Zanetti is the oldest at 39 years old. So how does the list break down by nationality? There are 8 Argentinian players on the list and both Italy and France have seven footballers on the top The full breakdown by nationality, club and position can be found in the downloadable spreadsheet. Can you do something interesting with this data? Data summary Click heading to sort table. Download this data No.
