Some sources have credited him for dramatically increasing prize money in golf, generating interest in new PGA tournament audiences, and for drawing the largest TV ratings in golf history. It is capable of absorbing up to 5, Gs of shock, far in excess of the forces generated by a normal golf swing. A related effect was measured by University of California economist Jennifer Brown, who found that other golfers scored higher when competing against Woods than when he was not in the tournament. The scores of highly skilled exempt golfers are nearly one stroke higher when playing against Woods. This effect was larger when he was on winning streaks and disappeared during his well-publicized slump in . Multiple golf experts have heralded Woods as "the greatest closer in history". He is one of five players along with Gene Sarazen , Ben Hogan , Gary Player , and Jack Nicklaus to have won all four professional major championships in his career, known as the Career Grand Slam, and was the youngest to do so.

Not great, not terrible. Good enough for T37, four strokes behind the leaders. Woods had his chances, going out in 1-under. But he made too many small mistakes following a near-eagle on 15 with a three-jack from inside 15 feet on 16, for instance, or following a foot birdie putt on 8 with a bogey on the par-5 10th. Small mistakes are survivable on their own, but small mistakes become round-killers when they stack up. Never ceases to amaze. What a save from TigerWoods. Wait for the second angle. *Tiger Woods. What a crazy life this guy has lived. Back in his heyday, Woods was winning seemingly every week. Back in , he was 1/3 to win a major at Ladbrokes and back in , he had even odds to win the Masters.*

It was around 3 in the morning. About an hour earlier, Earl had taken two or three final breaths that sounded different from the ones that came before. Tiger got the call and came straight to Cypress, passing the Navy golf course where he learned to play, turning finally onto Teakwood Street. His dad never sold the house because he liked the easily accessible nostalgia. Elin did college homework, which she often did during any free moment, in airplanes or even on fishing trips, working toward her degree in psychology. There were six passengers total, and Tiger plopped down in his usual seat, in the front left of the plane. His siblings tried to talk about the old days. Kevin retold a favorite about a camping trip with a or year-old Tiger, in a forest of tall trees: While walking to use the bathroom, Tiger had stopped and peered high into the branches. Earl, a former Green Beret and Vietnam combat veteran, would have liked that. The graveyard was cool in the shade, the hills rolling from the street toward a gully. Woodpeckers hammered away in the trees. Two cedars and five pines rose into the air. Tiger stayed strong, comforting his mother, and Earl Jr. They buried the ashes and left. Seventy-seven minutes after touching down in Kansas, Tiger took off again for Orange County. Consider him in that moment, 30 years old, the greatest golfer in the world, winner of 10 major championships and counting, confident that the dreams he and his father conceived on Teakwood Street would eventually all come true. His pilot climbed above the clouds. Tiger Woods sat in his usual place, facing forward, the seat across from him empty now. The secret history of Tiger Woods In the 10 years since his father died, Tiger Woods lost his greatness at golf, while becoming obsessed with the military and indulging in a dozen or more affairs -- both reflections of Earl Woods. Wright Thompson reports on the secret history of Tiger. Photograph by John Huet. His annual tournament begins at a nearby course soon. Both his boats float a few dozen yards away, in two of the first three slips: When he bought his plane, he blocked the tail number from tracking websites: It ends in QS, the standard code for NetJets. He comes and goes quietly. Not long ago, he asked Jordan a simple yet heavy question: How did you know when it was time to walk away? Tiger sent her to get help. Yesterday at a news conference, he said for the first time in public that his golf career might be over. A reporter asked what he did for exercise. Tiger grew up without any siblings or many friends and spent his childhood with Earl, either on the golf course or hitting balls into a net in the garage. Splash News "I walk," he said. I think pretty much everything beyond this will be gravy. His college roommate Notah Begay texted him around Halloween. When he lived in Orlando, a former neighbor said, he liked to ride on a skateboard behind a golf cart in the gated country club he called home. When he booked his free-diving lessons in Grand Cayman, instructor Kirk Krack recalled, he reserved his spot under the name Eric Cartman. So of course he loves Halloween, and when Notah asked about his costume, Tiger wrote back. The dreams he dreamed as a boy are ending. They met as children -- Tiger was 9 and Notah was 12 -- playing youth golf in California. A few weeks ago, he and Tiger were hanging out at the house in Jupiter when Woods realized they needed to make a carpool run and get his kids at school. They drove over and parked in line with the other parents, about 30 minutes early, and to kill the time, they laughed and talked about Stanford. Can you believe we are sitting in a carpool line? Tiger is facing the reckoning that all young and powerful men face, the end of that youth and power, and a future spent figuring out how those things might be mourned and possibly replaced. This final comeback, if he ever gets healthy, will be his last. The answer is complicated and layered. He fell victim to many things, some well-known and others deeply private: The forces kept working until finally his wife found text messages from Rachel Uchitel on his phone and he ran his Cadillac Escalade into a fire hydrant that car, incidentally, is owned by a man in rural Arkansas, who bought it used from a local dealer, neither of whom knew its own secret history. After Thanksgiving in , his life split open in the most public and embarrassing way -- can you imagine having to talk about your sex life in a news conference with your mom in the front row? In an odd way, it was the end. On some level, he even understood what was happening to him, or at least was invested in understanding. There was a book in his car the night of the wreck, and it ended up on the floorboard, covered

in shards of glass. Its title was *Get a Grip on Physics*. The topic fascinated Woods. The intro to *Get a Grip* laid out the basic rules of early science, from Newton and Galileo, focused on the concepts of friction and gravity. These had long interested him. Five-year-old Tiger once made a drawing that showed stickmen swinging different clubs, with the clubface sketched, as well as the flight path of the ball, including distance and apex. From the beginning, his golf talent has seemed to be an expression of his genius, not the genius itself. He is a remarkable person, and not because he once won 14 important golf tournaments, but because he thinks about how he came to occupy his particular space in the world. They lived such different lives. Earl joined the Green Berets because he saw them as the only place a black man could be treated fairly, and when he retired, he played golf day after day. Before his son, Earl had the lowest handicap at the Navy golf course near their home, despite not picking up a club until he was 18. He grew up without siblings or many friends. Fighter jets took off and landed at the airstrip parallel to the 17th and 18th fairways. Tiger heard the stories and saw the deep love even strangers felt for each other. His entire childhood revolved around these men and their code. Tiger and Earl held strong opinions about how things should work and nursed deep stubborn streaks, so they often butted heads. Tiger hated that his dad cheated on his mom and cried to his high school girlfriend about it. He could mend the broken places inside all of them. All sons, whether they love or hate their fathers, or some combination of both, want to cleanse themselves of any inherited weakness, shaking free from the past. This is certainly true for Tiger, whose father seems to evoke conflicting emotions: The best and worst things that have happened in his life happened because of Earl. There was a "cook" at the Open Championship, and when Callahan said she must be a good cook, Earl grinned and said, "She sure knows how to keep that potato chip bowl filled up. They were father and son, and teacher and student, best friends and running buddies and together, one complete person. Just after the Masters, Tiger and his dad took a trip together to Fort Bragg, where Earl had been stationed with the Green Berets. The man assigned to take Tiger out of the plane was a soldier named Billy Van Soelen, who explained the difference between broad daylight at Fort Bragg and pitch-black combat situations. Tiger grinned the whole way down. Earl was waiting in the drop zone, Van Soelen says, and he gave Tiger a big hug. Earl needed an oxygen tank during that trip. Now consider Tiger Woods again, in this moment the best golfer in the world, taking his first break ever -- 24 days without touching a club, the most since he was a boy -- watching his father die. He spent a lot of that break on Teakwood Street, struggling to sleep, three days passing before he finally drifted off on the floor. When Tiger groggily looked up, Earl said, "Merry Christmas. He wanted to be a SEAL when he was young. A top-ranked triathlete washed out. During one stop, a SEAL named Thom Shea helped conduct a weapons demonstration, with seven or eight guns spread out in front of him, from the Sig Sauer pistol through the entire sniper suite of weapons. Three years later, Shea would earn a Silver Star leading a team into battle in Afghanistan. Tiger stood on one side of the table, his arms crossed, a pair of Oakley sunglasses resting on the back of his knit cap. Shea says Tiger remained very quiet, taking in as much as he could, only turning on his famous smile when someone asked for a picture or an autograph. After the table show, Shea walked Tiger to another building for the next part of this tour. The two men talked on the way, and even a decade later, Shea remembers the conversation, because of everything that would happen later. Tiger wanted to know how SEALs kept their home life together despite the strain of constant travel and long separations. Shea told him that balance was the only thing that worked. He says Tiger asked how they kept this up, year after year of stress, the long slog always outlasting the romance of a job title. Three months later, Earl died and everything started to fall apart. Everything is a shade of muted tan and green, like Afghanistan, with boulders the size of cars along the highway. This time, Tiger came to do more than watch. Brown pulled Tiger aside. The sun was shining, a nice day, and the two men talked, standing on the northeast corner of a shooting facility.

Woods, who played brilliantly at times through the first three days, laid his first egg since returning with a 76 on Sunday that included three double bogeys. The 4-over score was the worst round anyone had in any single round this week in the Bahamas, and it dropped Woods, who finished at 4 under, all the way to 15th on the leaderboard out of He defeated only Russell Knox and Emiliano Grillo. Woods only made seven pars on the day as he filled his colorful scorecard with wild and crooked numbers. He had three consecutive birdies and five overall to go along with all the doubles. I made a lot of birdies, but I made a lot of mistakes. I made some poor decisions. Nobody in the field had more birdies than his That is not a typo. Woods led the field in birdies made with He also finished last in the field with six double bogeys. I made some bad mistakes, too. Three doubles today, it adds up to a pretty high number. I made some birdies, too. I need to balance it out. None of it matters. What matters is that Woods showed three parts of his game that portend well for the future. A willingness to take shorter swings and control the ball A red-hot putter An ability to get through 72 holes while pummeling drives and showing no signs of injury whatsoever It is the third point that is probably the most important. Woods was going after some drives this week. But as juiced up as he was on the tee box, he was just as calm and nuanced with his iron play. It was a performance I would have expected three months from now but not this week. When Tiger Woods hits a perfect drive The pain, the issues I have, it was just rough. To battle back, to battle through it Those are scary times. The calendar year remains a question mark for Woods but not in the way we thought a few months ago. The questions now are where he will make starts, not if those starts will even happen at all. TW says no specific target for his next start but hopes for a "full" schedule in Woods is suddenly hurtling towards the Masters with a lot more momentum than he had a week or a month ago. Getting there will be, as Tiger loves to say, a process.
