I grew up with a mentally ill single mother raising me and no father figure in my life. I lived on my own in an apartment from the age of 18. I remember the day I met the force of nature that is Larry Hagman like it was yesterday. It was actually 35 years ago. My Uncle Larry became the father figure that I so needed and longed for. He taught me how to be professional, work hard, but have fun at the same time, and how to respect the opportunities I was blessed to have been given. He was very protective because I was so young, but also expected the best from me on the set of *Dallas*. He was one of the best actors the world has ever known. To me, he will always be my Uncle Larry. I am so so very sad, but cherish the lifetime of memories I have with him.

Shortly after his birth his mother died. He was left in the care of local women, possibly his grandmother, because his father, who commanded the local garrison, had been called to San Juan Island incident or "Pig War". Captain Pickett, who had decided to join other Virginians in defense of it dominion, had two problems with "Jimmie". The first was a battle zone was no place for a child, especially with a father who was a single soldier. Pickett and his friend, Maj. James Tilton, felt that the best solution was to find a childless family. This was accomplished through Isaac and Catherine Collins, of whom Pickett knew and regarded as the best of his choices. George Pickett then kept contact with "Jimmie" through Maj. Tilton, but before leaving he presented "Jimmie" with his official commission in the United States Army, a family Bible with a transcribed page, a letter about his mother, and a lock of his baby hair. His grandmother put these into a red leather trunk, along with his baby clothes,"so the child would know who his father was. At an early age he demonstrated artistic ability. Both his foster parents and his teachers at the Union Academy, in Olympia Washington, took interest and aided him. LaSalle often offered assistance and wrote letters to Jimmy throughout his life. He attended art school in California. While he was there he met George, Jr. Evidence suggests that there was an altercation and somehow "Jimmie" was asked to bow out of the family "situation". Later he worked as an artist and sometime reporter on the Portland "Oregonian". In a nearly page long eulogy after James Pickett died, David Wexlar wrote in the Portland Oregonian; "His life seems as a picture of magnificent conception laid away half finished As a beautiful poem half written, or a sweet sad song whose melody is shattered just as we begin to be enchanted by its music. James Pickett will ever live in the memory of those who knew him best as one of the truest, purest, manliest of men, as well as one of the rarest geniuses this Northwest has ever produced". It was the highest price paid for a painting in that time and for an unknown artist. His boyhood home became a monument and museum, which remains today. Pickett had been posted to Ft. Bellingham with the sixty-eight men of Company "D", Ninth Infantry, near the Canadian border, Indian tribes living on both sides. Since the days of Hudson Bay trappers and hunters, relationships with Indian girls had become more numerous. Several writers indicate that the men frequently entered into sham marriages for a night, a week, or a month, then left and never returned, unaware and uncaring of the resulting children. To the Indian families, these had been presumed to be permanent liaisons, and they found such treatment unacceptable. By contrast, it appears Pickett required his men to go through a marriage ceremony indicating commitment. Davis, had married a Swinomish woman, producing a son, Sam Davis. His ruling negated the idea that Americans would recognize no marriages in cultures around the world but their own. It appears that they were married twice: Again there is no definitive proof, and the story that the bride and groom each wore one white glove, their joined gloved hands symbolizing the marriage union, may well be apocryphal. It is possible that Pickett used the gloves in lieu of exchanging wedding rings, or it may have been a carry-over of an old West Point tradition. The gloves obviously held some deep meaning for him, since they were packed in the little red chest Morning Mist had brought with her. Afterward, they were married in the "Boston" manner in a more traditional ceremony, which took place in the home of a prominent individual in the community, sometime in The wedding site was probably the home of Edward and Theresa Eldridge, a local businessman, founder of the first school, and in general a trend setter in the early years of the new town. Pickett had a small house built for his new bride at Bancroft Street in Bellingham, today maintained as a tourist attraction by the Whatcom WA County Daughters of the Pioneers. The first house built in Bellingham, this modest frame house consisted of a main portion 25 feet long and 15 feet wide, with an upper level; it was heated by a stick and mud fireplace. The young mother never fully recovered from a difficult delivery. Pickett summoned his own physician, Lt. George Suckley, for assistance but he did not arrive in time, and she died within weeks. Four years passed, during which he cared for young Jimmie. When he was assigned elsewhere for active duty, the child was apparently sent to stay with

his Indian grandmother, or may have been cared for by local women. Then came the fall of Ft. Sumter, and Pickett faced a dilemma. He could stay in Washington state with his son and ignore the coming invasion, or return to Virginia joining his friends to defend his state. While formal miscegenation laws were not yet enacted, old line Virginians would not accept a child of mixed race; Jimmie could never hope to grow up in Old Dominion society with his background. Doubtless Pickett agonized over the decision, but there was no escaping devotion to his original home. Taking the only course open to him, he sent the the boy to Catherine and William Collins, local friends he had met earlier, whom he considered substantial citizens. He did provide for his son financially, forwarding periodic sums of money to Tilton to be given to the Collins family for the next ten years, as well as gifts. He left Jimmie his official commission in the U. Army as well as a Bible, containing a letter written about Morning Mist, so that he would not forget the mother he could never know. Your father, George E. It also would contain some 13 letters written to him by his stepmother, LaSalle Pickett, and at least 18 written to him by his devoted foster mother, Catherine Collins. Later he attended an art school in California and during these art school days, George E. Sallie Ann, now known as LaSalle, had intended accompanying him, but was prevented by illness. No one knows what transpired, but it is thought that George, Jr. Jimmie took offense at some slight on the part of George, Jr. There is no record of any further meeting between the two young men, or with his stepmother. Some writers have found evidence that Jimmie was financially persuaded to stay out of the picture when Pickett gatherings were held back in Virginia. This produced the only time he asserted his family connection, asking for the property located in Bellingham, Washington near the original home of Pickett and Morning Mist. For several years LaSalle opposed the request, but ultimately agreed when the young man threatened a law suit to obtain legal title.

Chapter 5 : William Ferrell • Bud • Tilton, Jr () - Find A Grave Memorial

Charlene L. Tilton (born December 1,) is an American actress and singer. She is best known for playing Lucy Ewing, the saucy niece of John "J.R." Ewing Jr. (played by Larry Hagman), on the television series Dallas.

Prior to that role, however, you may have recognized her when she appeared on *Happy Days* and *Eight is Enough*. That being the case, the marriage fell apart and Lucy was the product of a broken home. She quickly learned how to use that disadvantage to her advantage; becoming somewhat of a problem child. She ultimately made her way to the family ranch, Southfork, for the purpose of being raised by her grandparents. Ewing Larry Hagman , made it his business to insert himself into much of the family business, including anything and everything concerning Lucy. In true soap opera fashion, Lucy, although only a child, brought some very colorful baggage to the show. When she landed on Southfork Ranch, she had a reputation for being a troubled, as well as a troublemaking teen. Like many teenagers, she was rebellious and skipped school. Ok, so skipping school and having eyes for an older man does not, in and of itself, make a teenager all bad. Lucy, however, took the drama to a higher level. Lucy was a conniving little vixen. She was young, clever, privileged and drop-dead gorgeous. Of course, Lucy was smart enough to know that all of these qualities could be used to her advantage; and use them she did. She knew that her beauty opened doors! Since Lucy had a problem going to school, she needed some extra help with her studies. At one point, Lucy was being tutored for math. She falsely accused her math tutor of rape. In exchange for clearing his name, she extorted help from her Aunt Pam Victoria Principal. If Pam would lie to her grandparents and tell them she was doing well in school, she would clear the tutor of wrongdoing. This is NOT kid stuff, my friends! After breaking it off with Ray, Lucy found herself engaged to be married to someone else. Someone her own age; only to break it off after finding out that he was gay! Later in the series, after Lucy had matured somewhat, they reunited and remarriedâ€¦. This is soap opera fodder at its finest! Although Lucy was an expert at the family business of manipulation, she was ultimately no match for her much more experienced elders, especially, J. She was usually able to be reined in but not before the damage was done. There was something awesome about living dangerously through Lucy! Privileged or not, I guess it just goes to show you that people are all just people. In some ways, we are all just products of our environment. Share with your friends! She is a wife and mother of 3 with a fun-loving spirit, believing that family and relationships are invaluable.

That meant doctors felt that they were developed enough to be delivered safely. But doctors started to realize something after too many inductions resulted in complications. As a result, the American College of Obstetricians and Gynecologists changed its official guidelines. Any pregnancy over 39 weeks is now considered full term. Babies born 37 weeks to 38 weeks and six days are considered early term. The new guidelines have resulted in more babies staying in the womb longer. But it can be hard to shake the old way of thinking about 37 weeks being OK. In most cases, the answer is yes. But there are a few things you should know. Why your due date might be off It turns out that whatever due date your doctor gave you might be off by a week. So if you consider yourself full term at 37 weeks , you may only be 36 weeks pregnant. Unless you conceived through in vitro fertilization IVF and have scientific proof of exactly when you became pregnant, your due date is likely off. Even for women with regular, exactly day cycles, the exact time of fertilization and implantation can vary. When you have sex, when you ovulate, and when implantation occurs all factor in. But sometimes babies are born prematurely. In cases involving conditions like preeclampsia , early delivery might even be the safest option. But there are still risks for babies born before full term. At 36 weeks, a baby is considered late preterm. According to the journal Obstetrics and Gynecology , late preterm babies born between 34 and 36 weeks account for nearly three-fourths of all preterm births and about 8 percent of total births in the United States. The rate of babies born at this stage has risen 25 percent since . At 36 weeks, the risk of health complications decreases significantly. The risk is much lower from babies born even at 35 weeks. But late preterm babies are still at risk for:
