Chapter 1 : TIME Magazine | Latest Issue

Recently, I had the pleasure of studying TIME Magazine's Special Edition, " Photographs: The Most Influential Images of All Time", from which I came away captivated by this stunning collection of images of some of the most profound and influential events in human history.

Time magazine was created in by Briton Hadden and Henry Luce , making it the first weekly news magazine in the United States. They first called the proposed magazine Facts. They wanted to emphasize brevity, so that a busy man could read it in an hour. He saw Time as important, but also fun, which accounted for its heavy coverage of celebrities including politicians , the entertainment industry, and pop cultureâ€”criticized as too light for serious news. More recently, Time has incorporated "People of the Year" issues which grew in popularity over the years. Notable mentions of them were Barack Obama, Steve Jobs, etc. The first issue of Time was published on March 3, , featuring Joseph G. Cannon , the retired Speaker of the House of Representatives , on its cover; a facsimile reprint of Issue No. According to Time Inc.: In his book, The March of Time , â€”, Raymond Fielding also noted that Larsen was "originally circulation manager and then general manager of Time, later publisher of Life , for many years president of Time Inc. According to The March of Time , as early as , Larsen had brought Time into the infant radio business with the broadcast of a minute sustaining quiz show entitled Pop Question which survived until ". Then, in , Larsen "undertook the weekly broadcast of a minute programme series of brief news summaries, drawn from current issues of Time magazine [The Intimate History of a Publishing Enterprise â€”, leading to an increased circulation of the magazine during the s. In , when Time, Inc. In , Jason McManus succeeded Henry Grunwald as editor-in-chief [11] and oversaw the transition before Norman Pearlstine succeeded him in The magazine actually began in with Friday publication. The new magazine met with a poor reception, with criticism that its focus was too broad to be truly personal. The articles are indexed and were converted from scanned images using optical character recognition technology. The minor errors in the text are remnants of the conversion into digital format.
