Or, you might choose to duplicate the basic idea using another program, such as Microsoft Word or Publisher. Note that students need to have basic skills at opening and closing programs, saving work, printing, and so on. As an adventure is read, help students identify the action, the characters, the conflict, and the resolution. Also, ask what images might help them better understand or imagine the scene. The steps below can be completed as a class in a computer lab or in a 1: If appropriate or desired for your students, you might show them an example of a completed travel journal before beginning the lesson. Provide students with the following directions: Your job today is to add new text to the template to transform it to a travel journal written by Odysseus about some of his adventures. Click the title "Italy" and change it to "The Odyssey. The details below each location will tell what happened to Odysseus when he was there, and how he escaped or left. A tip on style: Go to a Web page and drag an image to a placeholder a place containing an existing picture on the Pages document. Insert video or audio too. Go to Homer Odyssey: The audio now is in iTunes. Consider using the following Web sites: Rely on real pictures instead. The Homer Home Page Scroll to images. Google images By far the fastest way to look for images, but note that many have too low resolution need K or better to look nice. Select Large Images from the drop-down menu. Click the Pages icon at top left and select Text Page from the drop-down menu to add a third page. Type on that page all your sources. Include print as well as online sources. You can use the Citation Machine. Assessment Students will be assessed on their ability to:

It is located inside a cave - reach it by using a rope. Remember that these chests must be opened with a special lockpick which can be bought from Moraekah. Relics Handkerchief 1 - located behind a small lake, in the northern edge of this location. Sextant 2 - climb the tree and then jump on a stone ledge. The relic is inside the red box. Video Camera 3 - lies on the ground next to the survival cache, west from Plane Wreckage campsite. Pistol Parts 4 - in the left part of Plane Wreckage campsite. Approach it and you will be able to notice the small red box. Grave Marker 5 - you can find this relic right after you enter the crypt. Elongated Skull 6 - this relic can be found in the same crypt where you got Grave Marker. However, Elongated Skull is guarded by traps - disarm them. Llama Figurine 7 - on the left side of the large gearwheels, inside the chest that stands on the ground. Bowl of Powder 8 - you can find this relic by walking down the stairs towards the water. Pistol Parts 9 - this relic can be found near Jungle Ruins campsite. Go a few steps to the left. Lara will come across a trap. Disarm it and reach the document. Open the sarcophagus and then break the wall. The document is located on the other side. The document lies at the end of the road, at a rock. Use your survival instinct and you will see a tree on the right. After that you have to jump down on the stone ledge with the document. Underworld Gate 12 - this document is located left from Canyon Ruins campsite. At The Gate 13 - you can find this document in Underworld Gate tomb. Survival cache The first survival cache 1 can be found near the northern crypt in Peruvian Jungle. The cache is in the shallow water. The second 2 lies on the ground near Video Camera relic 3 , west from Plane Wreckage campsite. The third 3 is in the left side of Plane Wreckage campsite. Approach that area and the game will inform you that you can dig something out. This item is in the shallow water. The fourth survival cache 4 is on the stone ledge located on the left of the exit from the crypt. The fifth survival cache 5 is near the entrance to the crypt located in the east part of the map. The sixth 6 is near the campsite, on its left. This survival cache is on the ground - you can spot it easily by using the survival instinct. The seventh and eighth 7 and 8 are in the same area. Both are located near the gearwheels - the seventh cache is north from that place, the eighth is in the south. The ninth cache 9 is located in Underworld Gate tomb.
