Burt Gillett was attached as the director while Frank Churchill was assigned as the composer. To expand the story, storyboard artists suggested visual gags, some of which ended up in the final film. This version stuck closely to the original fairy tale until Cinderella arrives home late from the second ball. Her stepfamily then imprisons Cinderella in a dungeon cellar. When Spink and his troops arrive at the la Pochel residence, Dusty takes the slipper and leads them to free Cinderella. Raymond and Maurice Rapf quarreled, and Rapf was reassigned to work on Cinderella. She revolts, so they lock her up in the attic. In the treatment, the Prince was introduced earlier in the story reminiscent of Snow White and the Seven Dwarfs , [15] and there was a hint of the cat-and-mouse conflict. In order to restore the studio to full financial health, he expressed his desire to return to producing full-length animated films. By then, three animated projects—Cinderella, Alice in Wonderland , and Peter Pan —were in development. Disney felt the characters in Alice in Wonderland and Peter Pan were too cold, while Cinderella contained elements similar to Snow White, and greenlit the project. Selecting his top-tier animation talent, Ben Sharpsteen was assigned as supervising producer while Hamilton Luske , Wilfred Jackson , and Clyde Geronimi became the sequence directors. As he was occupied with trains and the filming of Treasure Island , the directors were left to exercise their own judgment more on details. When Disney did not respond, work resumed and then had to be undone when he did. Production was finished by October 13, The show featured fifteen minutes of music, in which David and Livingston had their music presented. Additionally, the animators were instructed to draw from a certain directorial perspective to avoid difficult shots and angles. Well, you could get the animation camera up there! So you had to go with what worked well in live action. Marc Davis later animated Cinderella, in which Larson observed as "more the exotic dame" with a long swanlike neck. Because the final character design was not set, assistant animators were responsible for minimizing the differences. Following the casting of Verna Felton, Kahl managed to convince Disney on his undignified concept of the Fairy Godmother. Cinderella would sing three songs: In an effort to recycle an unused fantasy sequence from Snow White, the song, "Dancing on a Cloud" was used as Cinderella and the Prince waltz during the ball. They finished the songs in March This was a drastic change from the earlier Disney animated features in which the music and action was carefully synchronized in a process known as mickeymousing.

With the release of Snow White and the Seven Dwarfs , all of the existing titles in the Classics line were replaced with the Masterpiece Collection line, and the Classics line was cancelled in the United States and Canada. Cassette copies of the original Classics series became highly sought-after and are very popular with collectors, since most retailers had the first home video release for Disney animated features in their stores until the label was discontinued. Disney has used the word Classics to describe three types of feature-length films that include animation: Animated features that contain one continuous story; these are most-closely identified with the "Classics" label. Films made up of several shorter, self-contained animated stories. This includes the six package films produced from to , most of which include live-action characters. Another example is The Many Adventures of Winnie the Pooh , released theatrically in , which was a compilation of several shorter Winnie the Pooh films that had been released previously. Live action features which contain fully animated sequences or characters. Some of the animated package films and live-action films featuring animation were released on home video in the early s, such as The Three Caballeros and Fun and Fancy Free , but most of them were not big sellers. While the people at Disney were looking through their inventory of films to see what was available for the new cable channel, they decided that they could air some fan-favorite films such as Alice in Wonderland and Mary Poppins , but that 15 other animated movies would never be aired. These 15 movies laid the foundation upon which the Disney company was built. By the time the Masterpiece Collection replaced the Classics collection in the domestic market, Snow White and the Seven Dwarfs and The Aristocats were the only two of the original 15 classics that had not yet been re-released. All of the single-story animated features made by Disney were included in the list of 15 classics except for 2. The exceptions were Dumbo and Alice in Wonderland , both of which had been shown on television at the earliest opportunity. Both of these movies were released on video within the first two years of the creation of Walt Disney Home Video; the videos were only briefly available for rental before they became available for sale. Despite always being available, Dumbo and Alice in Wonderland have made millions of dollars in subsequent home video releases. North American release history[edit] No.
