About You Say I'm a Diva Like It's a Bad Thing. Bold and defiant, like the women profiled between its covers, YOU SAY I'M A DIVA LIKE IT'S A BAD THING is a cranked-up collection of affirmations for mommies on the edge, self-styled drama queens, and domestic goddesses everywhere.

A cab driver was aggressively 99 percent of Manhattan cab drivers do everything aggressively trying to turn right, and almost hit me. I gave him my death stare, as I usually do when cab drivers are out of line. But being called a "bitch" for no reason by a complete stranger practically brought me to tears. If he thought I was such a "bitch," then I was definitely going to play that part. My anger was so overwhelming that I started yelling back at him about how he had some nerve to criticize me when he was the one who was clearly in the wrong. This interaction got me thinking about the word "bitch. What is the actual meaning? And is it okay to ever use this word when referencing a woman? As a woman, I find the whole matter to be fairly complicated. Merriam-Webster defines "Bitch" in the following ways aside from the original meaning, "a female dog": According to the Oxford English Dictionary, "bitch" has been used to refer to female dogs since around A. The term was first used as a derogatory slur against women sometime around the 15th century. English language historian Geoffrey Hughes writes , "The early applications were to a promiscuous or sensual woman, a metaphorical extension of the behavior of a bitch in heat. Essentially, the mother is being referred to as a woman who has sex with lots of people. The biggest rise of the word as an insult against women was in the s. In , most of the books and articles published used the word "bitch" only to refer to a female dog. However, in , there were numerous articles and books that used the word as a slur against a woman or women. By , the number of references that called a woman or women "bitches" outnumbered those that referred to dogs. Women received the right to vote in Men were extremely hesitant to give women the right to vote; voting would give women quite a bit more power. The Seneca Falls Convention, where women demanded the right to vote, took place in During this time, the word bitch was used to mean one or more of the following: This is the time of the nuclear family, the perfect housewife. Women went back to doing their familial duties: During this second wave of the Feminist movement, in the s, "bitch" was reclaimed by women. They have attempted to reappropriate the word to mean "a strong or assertive woman. Bitch magazine refers to itself as "a feminist response to pop culture. According to the Online Etymology Dictionary , it began being applied to men in the s, to the male gay community in the s, and also became prevalent in the black community in the s note almost every rap song ever. Now, in reference to men, it is generally a negative term used to mean "subordinate" i. In , the New York City Council tried to introduce a measure against the word. Councilwoman Darlene Mealy stated that "the term is hateful and deeply sexist" and called it "a vile attack on our womanhood. This caused quite a stir in the news. We can all agree that name-calling is offensive. However, it becomes worse in my opinion when minorities or those who have been historically discriminated against are slurred by their historical oppressor. I am much more offended at being called a "bitch" by a man than a woman. In a way, it feels if we can reinvent this negative word and claim it as our own, it makes us stronger. Some women feel that they are dropping the negative connotation when they keep the word within the female community. I can understand that. However, this word is never okay to say when used negatively. As women, do we really want to perpetuate a male stereotype? Do we want to be thought of as whiny? Do we want female ambition to be given a negative connotation? I find it extremely shameful that a woman called Hillary Clinton a bitch. Surely, there are negative things that can be said about Hillary Clinton, but does resorting to sexist name calling have to be one of them? Regardless of how he means it, it will never be okay for a man to call a woman a "bitch. What do you think? Is it okay to call a woman a "bitch"? Do you cringe when you hear the word? Let me know in the comments!
